Unless you've been living under a rock the past 12 months, I'm sure you have heard about it. Everyone is talking about it and it's at the top of everybody's shopping list! It's the new Apple iPad! Yes, the iPad is out and this amazing piece of technology is taking the world by storm! But, the coolest thing about it from an entrepreneur's point of view has to be... The opportunity to rake in a TON of money selling your own iPad Apps! "The GREAT thing about iPad apps is that they're in their infancy ... and the market for them is WIDE open!" As iPad sales sky rocket, so does the demand for (and sales of) iPad apps shoot through the roof! iPad owners are eating up Apps like there is no tomorrow! The iPhone as you also know also, is still one of the hottest selling phones in the industry today. With easy access to the Apps Store, anyone with an iPhone is able to browse, buy and download applications, games, tools, etc, right from their phone. iPhone Apps can be as cheap as .99c to download which may not seem a lot, but when 1000 people buy, you're in for a nice payday. Early iPhone app developers made and still make a fortune this way from their app sales. And the iPad is heading in the same direction! Anytime there is a massive new trend, demand always outweighs the supply! And this current iPad scenario is a classic case of this. Just like the "Gold Rush" of the old west, those who are "selling the shovels" are getting RICH big time! This means a serious opportunity to cash in on this growing craze and demand for iPad apps! But I know what you're thinking... "Do I need to be an iPad expert or total tech-geek to create and sell an iPad app?" The short answer is "No!" You don't! Not anymore! Up until now, there was very little info about how to create and market iPad Apps. You did need to be a tech geek to know how to build apps or spend a fortune to get one built for you. Information was very limited and was also very expensive! But it's a totally different story today! Now you CAN get all the info you need to be able to create and sell your own iPad application even if you don't know a thing about programming or much about the iPad itself...and make a LOT of coin doing it! I've put it all together in a simple-to-follow e-course so you can be one of the first through the door of this opportunity and claim your stake of iPad App Cash! "The Simple Step-By-Step Formula to Making Cash With iPad Apps For Non-Techies!" What you will learn inside the iPad App Cash Formula e-course: iPad Apps Introduction: Become an instant expert on the iPad and iPad Applications

market so you know exactly what will fly off the Apps store shelves. How to Build Your First App: Get the A - Z about researching, building your App yourself (or outsource for pennies) and submitting your new App step-by-step! User Manual Creation Tips: Get the blueprint for creating simple user manuals for all your buyers so they will know how to use your newly built app. "Best Seller" App Creation Secrets: Discover how to build a quality, fun app that everyone will want to buy, pushing it to the top of the ranks! My Fast App Approval Technique: The surefire way to get your app reviewed and approved for the market as quickly as possible with no delay. App Marketing Secrets: Get "insider info" on how to market your app even further for more exposure that can double or triple your profits! Believe it or not, putting an App on the market is much easier than you think - and it isn't limited to "big corporate guys". Anyone can submit and sell an App! You don't need any special licence or permission. You actually don't even need to know anything about programming, about iPads or about marketing in general to get an app created and selling on the market. The other big benefit is that you don't need a lot of money to pay for iPad app development. I know it seems like an expensive venture, but I assure you it's super affordable to create apps. This is an amazing opportunity if you're looking at starting an online business or adding an extra income stream to your existing one. And if you're really trying to capitalize on the "iPad boom", the time to do it is now! Those who get their app in stores first will be a step ahead in the race for money. "Just imagine how much money YOU will make being one of the first ones to release you own iPad app!" It doesn't matter how old you are, your educational background or business experience. I have seen teenagers make a fortune from Apps and they're not even out of high school yet. It's really that easy! YOU CAN DO THIS. You'll find everything you need to know to become "the next iPad App tycoon" with the simple steps inside the "iPad App Cash" ecourse... -----

This is a great starting point for developing new ideas for creating "hot selling" iPad Apps. This is where all the fun begins! -----

----- MODULE 2: App Ideas & Planning The brainstorming stage! There are several different ways to predict if the app you put on the market will be a 'winner' or a 'flop'... This is the most crucial stage because you don't want to spend a lot of time or money creating and marketing something that didn't have any potential in the first place. The most important step is inside this

section! -----

----- MODULE 3: Developing Your App Yourself! Yes, YOURSELF! You can most certainly create the app yourself and I'm going to show every step in doing so... You can also outsource the creation to an expert for very cheap if you prefer that. I'm giving away all my top resources! You can be churning out profitable Apps left and right with little to no work at all!

MODULE 4: Selling The Socks Off Your App! Once you've got your new killer app on the market, now it's time to WATCH THE CASH ROLL IN by marketing the socks off of it! Here I show you how to get as many eyeballs seeing your app as possible. I have several ways of doing this and they're amazingly simple & CHEAP (if not FREE)! ----- All 4 Course modules come in .PDF format for easy and secure downloading, viewing and printing. Each module contains short and to the point information so you just get the meat - no fluff! You'll find out all the things you wanted to know... from choosing an app that will sell, to getting it in front of the masses for a ton of recurring payments filling up your inbox. But we're not stopping there!

----- BONUS: "Getting Started" .MP3 Audio Interview! In addition to the Pdf course modules, you'll get a 20 minute bonus MP3 audio to listen to right away! In this audio, you'll hear James Brown interview James B. Allen and uncover things like... The deadly pitfalls of App development and marketing you need to avoid... An easy "kick start" strategy to launch your new app And more insider App secrets from these two experienced marketers!

----- Are you ready to become the next iPad App guru with "iPad App Cash"?! "The sooner you get started, the more money you make!" As I mentioned before, those who get moving fast on this opportunity and start selling their iPad Apps on the market NOW are going to come out with more cash than those who start later. Don't waste anymore time! This rare window of opportunity won't be open much longer. Right now, the iPad App market is still in it's infancy - but it's just a matter of time before more and more entrepreneurs and marketers (your competitors) see the potential to make a bucket load with iPad apps too. So, get in now while competition is low and iPad apps are HOT! I know you see the potential for HUGE cash windfalls by selling your own apps in this billion dollar industry, and now you have no excuse NOT to follow your ideas and your dreams. This course is exactly what you have been looking for! You can finally learn just how quick and simple it is to have your

very own iPad App out there being downloaded by millions or users! Imagine if your App becomes the next top selling hit that everyone starts raving about!? What would that do for your income? For your future? A million App sales might change a few things, right? Even if you sell just a few thousand, would that help pay a few extra bills or pay for a nice vacation? And the best part is you can do it all from your home computer in your spare time! You just need to know "what" and "how to do it" which is what you'll find in this course.
