Instant Site Maker does all this and more.. When you order today, youll also receive the resell rights, along with the web page and graphics so you can sell Instant Site Maker on your own site. Make just one sale, and you've paid for your investment! MYSTERY SOLVED: How The Average Person Can Build Stunning Websites Without Learning HTML Dave: I'm a full time Internet marketer who *specializes* in Internet marketing related information and software products...I literally have *hundreds* of products in my inventory, and yours rank right at the top in quality, practicality, and VALUE...It's clear you've definitely done your homework, as each and every product you offer fills a specific and vital need to *serious* Internet marketers such as myself... And the fact that you offer master resale rights and ready-made web-sites for individuals looking

to not only *use* your products, but also *profit* by reselling them....well that's an inherent bonus that I'd be *crazy* to pass up! Thanks for everything! Bryan Winters Date: From: Dave Orme It is shocking to me that.... people, and I mean nice well-meaning folks, continue to spend huges sums of money on MS Frontpage and Dreamweaver to build their websites. After all, these packages cost at least \$159 (Dreamweaver is \$359), contain massive amounts of drop down menus, checkboxes and very complicated command structures. As importantly, I continue to be stunned that regular folk will spend the hundreds of hours trying to learn these expensive programs and STILL ultimately not get the result they want. Heck, there are 2 inch thick manuals sold at Barnes & Noble just to help you figure out how to build a small website. Is that so necessary? Well, yes, until now that is! Hey Dave: You are brilliant! I was skeptical when I reviewed Instant Site Maker. I mean, I am a professional Webmaster after all. The first thing I noticed was the simplicity of your tool. Just plug in the info and walla, a gorgeous web page. I'll be using this on my next mini-site project. Thanks for bringing Instant Site Maker to market. You've made my life easier and probably for thousands of others! Jim Mandich, Storm Golf So let's set aside the money for a moment. Have you ever looked at those programs? I mean, get under the hood? Well, I have, and let me tell you, they are EXTREMELY complicated, even for a professional programmer like myself. Why do people continue to spend the money and the massive TIME learning such a tool? Save The Time & Money....Simply Use Instant Site Maker At the request of many family and friends, I created Instant Site Maker to put a simple web site development tool in the hands of the average person. People told me they were tired of trying to figure out the commands, menus and terminology of Frontpage and Dreamweaver (and other similar tools). So I made Instant Site Maker EXTREMELY easy to use. web master resources and web tools for webmasters with royalty free resale rights More than the money they spent, people told me they were tired of the excessive time it took to learn how to do something as simple as changing a page color. So I set out to make Instant Site Maker a tool that would allow you to create and maintain web pages in less than an hour. This is a short list of what Instant Site Maker can do for you: * You don't have to learn HTML - You can produce web pages fast and save huge amounts of time. * It's point and click easy - If you can use a mouse, you can build stunning web pages quickly. Simply fill in the blanks, check a few radio buttons and you're finished! * Supports Clickbank electronic commerce - Integrated hooks to this popular ecommerce system allows you to start and grow your business or personal web site. Dave, Your tool is excellent! Gerry Craig * Supports digital downloads - Instant Site Maker allows you to upload

and sell ebooks, audio files, infoproducts, special reports, software or any other type of digital file you may wish to offer. * Full support for Search Engine Optimization Functions - Instant Site Maker supports all key requirements to gain high search engine rankings, helping to drive lots of targeted visitors to your site. * Integrated with Microsoft Word - If you can use Microsoft Word, you can use Instant Site Maker's copy/paste functions to retain 100 of MS Word document formatting. This feature alone could save dozens of hours in learning curves and formatting alone! * Supports Graphic Images - Give your web site a professional look with masthead graphics, box cover art or logos (graphics creator not included). * Create key ecommerce pages - Instant Site Maker creates your Sales page, Thank You page and Download link page, saving hours of learning and frustration you would experience with Frontpage or Dreamweaver. Those are but a handful of the features and benefits you'll receive with Instant Site Maker. Instant Site Maker is the easiest piece of software available to create great looking and performing web pages. There is no software to install. I've built integrated MS Word formatting features so you only need to cut and paste to format your text. Oh, and don't worry if you don't have MS Word. I've created over a dozen main formatting features that are included in the package for those who don't use Word. Hi Dave: As usual, this is amazing software! Simple, clean and good... ..Great, keep up the good work. Alex Rahman Instant Site Maker integrates all the latest data fields for you to create letter perfect Search Engine Optimized pages so that you can drive tons of targeted traffic from Google, MSN, AOL and Alta Vista. Not only that, included with your order is a landmark study which documents the key optimization principles of Google, the world's largest search engine today. That ebook alone is worth hundreds of dollars in special consultant fees that YOU will not pay. And yet you gain the significant insight into maximizing your potential to gain high Google rankings. Can It Really Be This Easy??? Instant Site Maker is "fill in the forms" easy via its single screen user interface. There are no complicated menus, commands or terminology to have to learn. Instant Site Maker uses a very simple 5 step process: # Fill in your digital download details # Fill in your search engine optimization details # Choose your images # Copy and paste your body copy from MS Word (or type it directly into Instant Site Maker) # Copy and paste your testimonials (if applicable) # Click a button, save the file and you are finished! Click Here To Order Today I created Instant Site Maker to accomplish two things: # Help you get your web site built quickly. # Make it affordable. With Instant Site Maker, you will get a simple but effective software package that will give you time back to spend as you choose. AND it does this at an extremely affordable price point of only \$13.95.

Aside from the awesome simplicity of Instant Site Maker and the extremely affordable price, for a limited time I've decided to extend Resell Rights. I don't know how long I will be able to extend the Resell Rights offer; it could be a day, a week or longer. I just know that I want to see this product get widespread market acceptance!
