Find out how to find the right cat for you... Buying and Owning a Cat That's Right For YOU! Many people find themselves toying with the idea of getting a pet and decide to set their sights on a cat. The cat might be for themselves, for a loved one, a friend, or for children. For those who have never owned a cat before, this can be quite a tricky venture. Buying a cat is not as simple as pointing your finger at a cat in the store and saying that you want that one. Unfortunately many people adopt this method of getting a cat and later find that the cat does not fit into their lifestyle for a variety of reasons. This is why a certain amount of research needs to be done before you decide on what kind of cat that you want and if you want to start out with a kitten or an adult cat. By reading this book you will be provided with the questions that you need to ask yourself in order to decide on what cat is right for you. Not all cats are the same. Different breeds of cats mean different physical features, different personality traits, and different behaviors. If you are gone from home quite a bit, you don't want to get a cat that craves its owners attention all of the time. On the flip side, if you are looking for a cat that you can snuggle up to while watching television, you don't want to pick out a cat just to find that they couldn't care less about being lovey dovey with you. This book will help you to find just the right fit so that both you and your cat are happy. Having a pet can be a wonderful thing when you two connect. Once you have your feline friend there are sure to be an abundance of questions regarding their feeding habits, grooming, health, vaccinations, and what supplies you will need to have on hand. Even if you have had a cat before, there are sure to be tips and tricks in this book that will help you understand and deal with behaviors that your cat may be displaying. This book is basically the Cat 101 on buying and owning a cat, plus there is a helpful chapter that is full of dictionary terms so that you can understand what other cat owners and your veterinarian are talking about, the information in this book is priceless! Don't Buy a Cat That Doesn't Fit Into your Home, Your Lifestyle, and Your Schedule One of the main reasons that animal shelters and rescue shelters are so packed with animals is because people take on more than they bargained for when they get a pet without doing the proper research on that particular breed beforehand. This book gives readers insight as to the common breeds of cat that many people find themselves quite happy with, and what criteria should determine what

kind of feline companion that you should be looking for. Without this information you are taking a risk at getting a cat that you are not happy with and sending it to a pet shelter or being stuck with that cat for the rest of its life because you are too guilty to get rid of it. This doesn't have to be your reality, this book offers you all the information you need in order to determine what type of cat is going to work best with you. It also contains chapters of useful information that will help you care for your cat after you decide what you want. Why spend hours searching all over the internet or through dozens of books when you can find all the information that you are looking for in one resource. *The Complete Guide to Buying and Owning a Cat is Here...* Once you have read the book and decided on what type or breed of cat to get, you will find all the information that you need on how to become prepared for your new addition to your home. This book will help you to know what items are necessary for your cat to feel comfortable in its new home, how to feed your new cat, and how to deal with many of its behaviors.
