How much is your time worth?? And how much of it do you spend on trying to get other sites to link to your site or searching out relevant blogs and posting comments just so you can get a link back to your site one at a time? Dear Friend, How much is your time worth?? And how much of it do you spend on trying to get other sites to link to your site or searching out relevant blogs and posting comments just so you can get a link back to your site one at a time? What if you could automate all that? Imagine a tool that would: Take in keywords you enter OR pull keywords from Google Sandbox or Overture. Use those keywords to find relevant blogs on blogger.com. Automatically post your comments to those blogs, including that all-important link back to your site. Skyrocket your link popularity! Sound too good to be true? Well, Blog Link Generator actually does just that! Think about it. Everybody knows blogging has surpassed e-zines and articles in terms of popularity. Blogs are where people go to get the real scoop on whats going on in todays Internet world. And there are millions of blogs. What if you could get thousands of blogs linking back to your site just by using Blog Link Generator to post your comments for you? Now Im not talking about junk comments- Im talking real personal comments just like the ones you now post.. What do you think that would do for your site traffic\$\$\$!!! So what do these automated messages look like? Well, they include the keyword you used. They look like this: I just came across your blog about ****keyword**** and wanted to drop you a note telling you how impressed I was with the information you have posted here. I also have a web site & blog about ****keyword**** so I know Im talking about when I say your site is top-notch! Keep up the great work, you are providing a great resource on the Internet here! The second ****keyword**** token in the text above will contain a link back to your web site! Blog Link Generator automatically replaced ****keyword**** with the list of keywords in the software that are revelant to your site! Is that powerful or what! Running down blogs and posting to them can eat your time It could take you hours a day to find relevant blogs and post a comment with a link. Not to mention the carpal tunnel syndrome and eyestrain youll get. Ive been there. I used to spend, like, six hours a day getting keywords from Google Sandbox and Overture, then hunting down blogs with those keywords, and posting comments with a link back to my site. Then, I got an idea. I spent a week writing down how much time I

spent doing all that blog stuff, then I looked at what my site was bringing in. Know what I was making per hour? \$10. Thats right, \$10 an hour. I couldve made more working fast-food. At that point, I realized there had to be a better way I had to automate this process if I was ever going to make it pay off. My requirements: I needed something that would automatically: 1. Take my keywords or keywords from Google Sandbox or Overture. 2. Find blogs with those keywords. 3. Post a comment to those blogs that includes the keyword. 4. Include a link back to my site in the post. 5. Increase the heck out of my site traffic. So, in desperation, I called a software developer friend of mine. There had to be a better way. And there was! (And no, I will not divulge his name. Ive got him working on a new project, and hes so good, hed be stolen instantly.) After extensive research, he figured out what needed to happen and he went to work. He developed the tool Blog Link Generator. It finds revelant keywords, finds the blogs, and then posts a personal comment right from me! Each post contains links back to your site, so when the spiders find the posts they love so, they also find YOUR SITE! The result?
