New Version 2 Camera Studio Software And Mrr Resale Rights

This is the more recently fixed version, an earlier version of Camtasia, called "CamStudio," was released under GPL, which means you can download it for FREE except there where some errors! CamStudio would be fine for most users, except that there are two MAJOR FLAWS with the older CamStudio program. 1. Output Flash videos DON'T WORK in Firefox or Netscape. This is a HUGE problem for internet marketers, who don't want to frustrate users or prevent users from watching their "videoized" sales letters! Considering just Firefox has had over 200 million downloads, you don't want this happening to your viewers! 2. There's no "redirect to URL" after playing option for your output Flash videos. John Reese says he was the first internet marketer to use this awesome feature in (the $300) Camtasia. This feature will redirect the viewer of the video to the URL of your choice when the movie ends. So you can make a video demonstrating a product or service and redirect your viewer immediately to the URL to buy! (This greatly increases conversion rates). But the old CamStudio doesn't have this option. Well now those two problems have been fixed. You see, I just managed to get resell rights to a new & improved version called. With CAMSTUDIO "Internet Marketers Version", output videos can now be viewed in Firefox AND can be redirected to a custom URL upon the end of the clip! Also comes with Resellable MRR Master Resale Rights and a Pre-built website to help you Resell it.
