"WHAT IF I TOLD YOU THAT YOU COULD GRAB OVER \$200,000 WORTH OF SOFTWARE DEVELOPMENT FOR LESS THAN THE PRICE OF A 6 PACK OF BEER?" Wouldn't you give it up just ONCE to get your hands on it? "If you haven't already heard, QuickPayPro sold master rights to their \$200,000 eBusiness Automation software to a limited number of people. It sold out in 3 days, but I have awesome news for you..." We were lucky enough to secure one of these licenses and are offering you a copy at a SIGNIFICANT DISCOUNT! So What Is The Hype All About? Here is what Dustin Struckman wrote when he first sold the source code: "I may have gone completely nuts, but a good friend of mine convinced me to allow you to offer you your very own Private Label of one of the longest-running shopping cart and affiliate automation solutions on the planet. Now I'm not talking about selling you a monthly membership to use this system. I'm talking about selling you the whole darn thing, source code and all to be able to start running your own shopping cart and affiliate solution for \$49, \$59, or even \$79 a month to as many people as you can. It's your baby, you can do what you want with it. How about offering free subscriptions to members of your membership site that sells your current products? You can't get anything like this anywhere else, and with the kind of deal I am about to offer you I would be willing to bet that this will be sold out in 3 days flat! I am offering you 100 percent of the money! Did you get that? With my program you get to keep 100 percent of all the money you make! OK you get the point, so let's get down to business.
