ATTENTION: If you have an eBay business or you are about to start one, this may be the most valuable letter you may ever read... "eBay Titanium Powerseller Reveals the Explosive Blueprint which Helped Him Sell \$4,129,521 Online in His Very First Year of Business!" Who Else Wants to Discover the True Secrets Behind Building & Running an ultra successful eBay Business? Dear Friend, Let's face it. You wouldn't be reading this letter if you didn't want more. I'm talking more money, more freedom, more time with your family, just more of the "good life", period. You also want less of something. Less stress, less headaches, less bills, less dependency on your day job, you know where I'm going with this. I've got news for you. I was once in the same boat, and truthfully, I am still there sometimes. Everything could be better, an improvement over your day-to-day duldrums and worries. Well guess what, it isn't going to get any better if you don't take action and do something about it! Here's the scenario. I was stuck in "cubeland" just like a lot of you. Struggling to pay my bills each month and could not see where I was ever going to get anywhere. I scoured the web for opportunity after opportunity. Then, I stumbled across a great deal on some sporting goods. I dropped a few bucks, put the items on eBay and was hooked! ... that's why I am here today. I am here to tell you my story, to motivate you and give you a head start in pursuit of your dreams. ... I am going to show you how you can easily make a few extra bucks, a part-time income or even a full-time income online. I am going to tell you all of the things that I did that produced great results from the time I was shipping 40 orders a day out my living room to the point that I had a dozen employees and was a booming force on eBay. ... I am also going to share all of my mistakes. I expose the wrong turns that I made that *** canned my dreams of freedom because I became married to my own business. You are going to get the best of both worlds. I share with you the great things that you need to be doing and the not so great things that you need to be aware of and look out for as your business grows. ... Nothing here is sugar coated. Sure, I sold \$4 million in my first year but I don't expect you to do the same. I busted my ass, sacrificed and ended up in the same boat I was in before my online successes. I let my business get so big that I had created just another job. That's what we don't want for you, right! ...before

we get into the details, that's why you're here right, the details? Let's get the fancy schmancy stuff out of the way. Sometimes I get some knucklehead that wants to know what makes me so special. ...You know what? Nothin' makes me special! See, I did what everyone out there dreams of doing . The only difference is that I took the first step and made it happen. That's all that you need to do. And I give you the tools and the blueprint right here to just that! Sure, the numbers below sound incredible but you know what, I watch college football like it's a drug, I love my pets, I ride my bike through the park and I always strive to make my life better. Sound familiar? I am no different than the guy next door. I just took action. ... that first step turned into: In my first year of selling online I sold \$4,129,521 of product! My amazing journey resulted in a 7 figure eBay business. I was an eBay Titanium Powerseller. I was ranked in the Top 500 Sellers for all of eBay and in the Top 10 for my category. I was selling over \$250,000 each and every month on eBay! All right, now let's get to the details: ... I am going to reveal to you the exact blueprint that I used to create my own eBay business. This book is hard facts. I leave nothing out about how I did it. ...this book is quite different from any other eBay eBook out there on the market. First, everything revealed is from actual, true life experience. I did this stuff. There is no hype. I hate listening to "theory". I want to know what works from someone who has done it...and that's exactly what you get with this book. Second, this book is not about eBay Basics, how to set up your listings etc. There is plenty of that information on the market. Cracking the Auction Code focuses on how to build your own, profitable and sustainable business on eBay. It's about getting a business up and running, not one auction! ...it's like you're getting the equivalent of an M.B.A about building your own eBay Business from someone who has already done it. These are just a few of the amazing bits of information contained in this groundbreaking book: 18 of the most profitable items you can start selling today on eBay to generate immediate income! The secrets to picking a profitable niche that you can dominate! - I reveal my research process which very quickly determines if you've found a "winner" or not. The 10 most important questions you must ask yourself before setting up an auction. I prepare you for the business aspect of this entire process. Again, you're not just selling here for kicks and giggles, if you are you can stop reading right now! Mistakes I made along the way which you can completely avoid. (How I wish I'd had this guide in the beginning when I was starting out!) An extremely important 30 minute exercise you can use to transform your life and business. (This is where 99 of courses fall short...and is absolutely essential to living a happy and successful life.) How to make your auctions far more effective at turning visitors into buyers.

How to quickly begin generating substantial profits each month in just a few short weeks. (This is a great extra income stream which is achievable in a short time.) How to use drop shipping the right way to save time and make more money! The only source I recommend for finding drop shippers for your eBay Business. (This is an absolute goldmine and easily worth the cost of the course.) And that's just for starters... How to differentiate yourself so people always buy from you, often at higher prices, even when competitors are selling the exact same thing. How to build a sustainable and profitable business on eBay. The goal is not some "flash in the pan" that's gone in a few months...but...one that pays you handsomely for years and years to come. Discover how to capture buyers on eBay and then sell them again and again outside of eBay for maximum profits. (This is one of the major keys to eBay success and I reveal to you the exact techniques I used to extract much more profit from every transaction.) How to add multiple profit streams to your eBay business in a very short period of time, bringing increased profits and more security to your earnings. Why eBay is more than just an "Auction Site" and how that point of view will help you be truly successfully on eBay. (In truth it is much more as you'll soon discover in this special book.) The Downsides To eBay - I'm not going to pretend there aren't any. There are. However, by using my different approaches you can overcome them all to build a very profitable auction business! Why you need to think of eBay as a place not just to sell your products but it provides 3 additional "must haves" for your business. (I estimate that less than than 1 of eBay Sellers truly understand this extremely powerful concept.) 2 incredible resources which helped me in a huge way build my 7 figure business in under a year. How to "eliminate the middleman" and instantly get a boost in profits of 15-40. AND WE DON'T STOP THERE... The 3 things you must get right to make it big on eBay. (Note: All 3 elements automatically come together when you get the right _____!) The big problem with most "retailers" and how to instantly fix it to give yourself a massive competitive edge in the market. Why you absolutely do not need to be selling products you know a lot about to make a killing on eBay. (My niche was an extreme sport of all things...and I was mega-successful...even though I'd never played the sport I was representing!) How to make yourself immune to the changes eBay so often makes. (The changes they make, such as raising their fees or preventing digital sales, cripple many Sellers and put them out of business, but this will NOT happen to you if you use my techniques which completely protect you from these changes.) A word about Legal Advice - My recommendations for protecting your business and earnings. (This is important and I feel you need to know it if you're serious about building a 7 figure eBay

business.) How I hired my first employee and the benefits it can bring to your business. How I track all my finances to make sure the business runs smoothly at all times. The dangers of your eBay business moving too fast ... and ... how to make sure it moves at a pace which is comfortable for you. If I had to do it all over again - starting from scratch - here's exactly how I'd do it! (You'll gain some priceless insights here.) Why you must not hold onto a niche if it isn't working - simply move onto another one. The TRUTH about bringing friends and family into your business! (In the beginning I made a huge mistake with this which you definitely want to avoid.) The TRUTH about bringing friends and family into your business! (In the beginning I made a huge mistake with this which you definitely want to avoid.) 5 Important Questions - you must continually ask yourself to achieve great eBay success. bullet Plus much, much more! BUT HERE'S THE KICKER! I'm also going to "sweeten the deal" by including the "The Complete eBay Marketing Toolbox" as a part of this book. FAIR ENOUGH??? Look. I have been told, by some pretty notable eBay sellers, that I could easily sell this information alone for \$47!!! Trust me on this. These are some of the most prolific and never discussed tactics that you can use to take your eBay business to the next level. Inside you'll find: 27 Free or Low Cost Tactics you can use to explode your eBay profits. The best way to capture email addresses directly from your auctions. A neat shipping "trick" you can use which will dramatically increase your profits. Why every item in your "About Me" page MUST open in a new page. How to maintain a very high positive customer feedback score (One of the first things people look at is your Feedback Score so it's extremely important to keep it as high as possible) Product review & article secrets for generating valuable leads and establishing your authority in the niche. Everything you need to know about Warranties, 800 Numbers, Live Support, Cross-Selling, Speed of Shipping etc. to boost your sales even more! And much, much more!
