

# 32 Ways To Keep Kids Occupied

[DOWNLOAD HERE](#)

Being a mother of 4 gorgeous children ranging between the ages of 4 and 15 years old, theres quite often times when the kids start to get a little bit bored, and I have to come up with things to keep them happy, entertained, and occupied. Available in PDF Format. Automatic download with confirmed Paypal Payment. Throughout the years, weve come up with lots of things we can do together as a family that dont cost the earth. A lot of them are even free. Some things weve thought up ourselves, other things are ideas passed down through generations and yet other things are what we have been lucky enough to learn about from various books, people and situations. At first I thought it would be hard work coming up with so many ideas for you to use and adapt to suit your own needs, but once I got started it actually turned out to be quite easy. The few times I did get stuck, I just asked the kids what kind of things we usually do, and they were quick enough to remind me. Im sure both you and your child/children (or even your grandchildren) will find lots of great things to do together. Discuss the ideas within this book to see if they have any particular wants and needs in the quest to cure their boredom, and they may come up with even more things to do. Ive compiled this book with my four children in mind, but dont worry if you only have one child. A lot of the things are totally possible for a single child, and you could always invite a couple of his or her friends along to make it more fun. \_\_\_\_\_ Instant Download after confirmed Paypal payment.
