Newly Released Software... Creates INSTANT, copy and paste meta-tags that build Free traffic to your site through simple search engine listings! Dear Friend, You can submit your site all you want...but, without the right things on your site, youre not going to get listed anywhere. And if you do, it wont be in the higher ranks of the engines. This is something I learned the hard way. I put together my sites and submitted them to every search engine I could find. I had no meta-tags and didnt think I needed them either. After a few weeks I checked out the engines, nothing listed. I waited another few weeks and check again, still, nothing listed about my sites. Search engines are tricky little things that need the right information to read on your pages in order to list your sites correctly. WOW, Ray. Youve done it again! You never cease to amaze me with the essential software that you develop. The Meta Tag Creator is a must have in ever webmasters toolbox. Im a very non-technical webmaster, but with this software, I created professional meta tags in about 2 minutes. Theres information in these meta tags that Ive never seen anywhere else. Great work!
