General Information Type: Ebook Pages: 135 Year: 2006 Personal Notes This book is among the best book focus on ebay profits. The writer wrote based on his experiences and many tips are provided, it is not 40 pages ebook wrote to pull out your money. Now, I know how to get products, where to find suppliers, and many more. He only tells you what you really need to know. Book's quote While making this book I talked to over 50 PowerSellers and had many fill out my questionnaires. What are the most important things I learned from my research? PowerSellers are just like you and me, PowerSellers are not genius and anyone can become a PowerSeller. Most PowerSellers I talked to were not able to give me any "secrets" or "magic formulas". When I asked the question "is it a good or bad idea to have your products drop-shipped directly from the supplier?" I had a lot of people answer "huh? What's drop-shipping?" I was amazed at how unorganized, uneducated and clueless some PowerSellers are. I was amazed because like many people interested in eBay I believed that PowerSellers were fine-tuned money making machines. Most PowerSellers are NOT fine tuned money making machines, they are regular people. If you apply half of what you learn in this book....you will be a PowerSeller!
