I am going to give you the information you absolutely need if you want to plan your dream wedding without having to pay \$1,000, \$2,500, even \$10,000 more than you really have to. Wedding vendors are in the business of making money by taking advantage of and exploiting the excitement that couples feel at the thought of their big day.. and they know that its a time in your life when you arent all that concerned about costs, even if you know that you will later regret it as you are stuck paying off a severe debt many years to come. What I discovered however, is that the tactics they use to save money when speaking with vendors and negotiating deals were downright simple! Had I known how to talk the talk and present my offers and

ideas in a way that wedding planners do, everything would have been so much easier.. AND I would have been able to save the \$7,000 I spent on the wedding planner! I decided to write down everything I learned so that other brides could spare the costs of hiring a wedding planner and still down on the costs of their weddings.. even as much as 75! Time and time again I have helped countless brides plan out their luxury weddings on a shoestring budget, eliminating the need for a wedding planner and being able to thoroughly enjoy their wedding knowing that they are starting off their marriages on the right foot - debt free!
