Stop wasting your time traveling down the road to failure: If you currently sell or are interested in selling any information product, including traditional books, e-books, audios, CD ROMs or videotapes and want to discover how to generate virtually unstoppable automatic profits from the information products that you create or license - You'd Be Nuts To Miss This Opportunity "Recently 5 Millionaires Were Trapped For 3 Days In A Crowded Room In Atlanta... To Show You How To Make \$10,000 A Month From Your Home Selling Information Products....." You Can Create For Pennies and Sell For Dollars! We Professionally Taped Every Single Word And Now You Can Own The Complete 16 Tape Library! Ron LeGrand Its all true. You missed the live event but now youll have an opportunity to get it on audio tape. If youve ever thought about selling information products or if youre currently doing so, you owe it to yourself and your family to take a look at this incredible offer where I supply you with resale rights to hot products and all the marketing tools, expertise and support to make money within 30 days. The live taped event is simply calledthe Information Marketing Boot Camp What is Information Marketing? Perhaps youre wondering what I mean by information marketing. Its simple If you sell information in any format youre an information marketer. That includes books, tapes, videos, reports, CDs, seminars, coaching, newsletters, consulting, e-zines and magazines. Its all information marketing, and its a multi-billion dollar industry. This industry includes hundreds of million-dollar companies and thousands of small home-based info-preneurs working from their home office a few hours a week. Some of these home-based operations are making over one million dollars a year silently behind the scenes. Others are simply subsidizing their income in a clean, non confrontational, low risk business. There are several real life success stories on the tapes. Heres the facts: The Purpose of the event was to help as many people as possible start or grow a high-income information marketing business from their home with no previous experience and very little start up capital. I dont care where you are financially or if you have a product to sell. One of the hardest things for people to learn is your success does not depend on you creating a product or being an expert in anything. The big money is not being a creative genius. The welfare lines are full of them. Any idiot can create

information products. But It Takes A Properly Educated Info Marketing Entrepreneur To Sell Them. If you dont have a product, dont worry. You wont need one because well show you how to Create Or License A Product You Can Produce For Pennies And Sell For Dollars in this package. The purpose of this package (16CDs online) is to take you by the hand and lead you through each step of a marketing campaign.

Heres a list of some of the things I covered in the tapes: Magnum Marketing. How to turn other peoples ideas and products into high powered cash generators using simple, safe and no risk methods. How to create products, quickly, easily and cheaply that sell for a lot of money, even if youre not an expert at anything. 9 Key ingredients of a good product. Miss one and youll probably lose money. How to quickly determine your break-even and examine your realistic potential profit before you begin any project. How to accept orders without taking any phone calls, talking to anyone, warehousing or shipping anything, processing cards or even having a merchant account. You wont need one unless you intend to do serious business and if you do well set you up. Your approved. How to put your business on auto pilot so you can play golf while the money rolls in. This aint hype its absolutely real and happening for me and everyone on the faculty. How to get your customers to send you more money without you lifting a finger. How to get new customers to come to you and sift and sort themselves automatically using the newest technology while youre asleep. Ill show you the most cost effective ways Ive tested and proven to get people to inquire about your product, whether youre looking for 50 prospects or 5,000. Copywriting secrets Ive learned over the last 10 years that increase sales 300 on the average. Examine the methods used by most of the faculty, to devise your own business plan for success starting with a paupers budget, as we all did. Learn how to test ideas as quickly and as cheaply as possible. Dont throw away new ideas just because youre not sure of the outcome. Analyze how to build irresistible offers that compel people to buy instantly. How to get others to sell your products at no cost to you and split the profit. Who Should Order This Package? You, if youve lost your job, think youre going to, or wish you would You, if you want to sit at home and make more money than your working stiff friends and relatives You, if you truly want to build a profitable and lasting business and make a quantum leap toward financial freedom You, if youre already selling information and want to multiply your current income by at least ten times. (I guarantee that if youre selling any kind of information now, we can show you how to at least double your income in 3 months or less) You, if you truly believe youre worthy of making a million dollars and have enough faith in yourself to do what it takes to make it happen. Youll be coached by a faculty of

millionaires in the same business they came to transfer to you. You, if you know me and think I'm a neat guy and are willing to order anything I offer even if it's only by audio material, especially when it's the only one on the planet of its kind. Do You Need Previous Experience? Absolutely not. You'll not only get the 16 audio CDs of the three day event but you'll also receive the exact same manual we used in class with the same page numbers we mentioned on the tapes for easy reference. This manual is a step by step marketing machine containing ten years of my experience and a few million dollars worth of trial and error. It's worth more than you're paying for the entire package and it's laid out in laymen's terms anyone can follow. And That's Just The Tip Of The Iceberg In addition to the 16 CDs (in downloadable mp3 format) and the 200 page workbook I'm including the following BONUSSES!!!
