The BBO Traffic Formula course has 4 content-intense modules: * The Quick-Start Formula - How to get ready to receive traffic * The Traffic Formula - How to get a flood of traffic to your new website * The Improvement Formula - How to improve the process to make more sales * The Next-Step Formula - Where to go next once you have started Special Bonus: I am going to give you a 50 discount to my service Your Squeeze Page. With this software you will be able to easily and quickly create squeeze pages to build your list faster. Module #2: Your First Product Here s a secret: If you want to build a \$100,000 business then you are going to need your own products. By the time I had built my first product I had already made over \$10,000 online. However, if I had just continued without creating my product, I would have made a total of \$40,000 that first year (i.e. the amount I made in affiliate commissions). Because I created my own product I was able to pull in around \$150,000, AND my affiliate commissions went up. This is simply because you will have more customers on your list, and customers have been proven to make you more money as they are more likely to spend more. So, here are some of the things that we will cover: * How to decide what you should create (e.g. e-book, audio course, video course). * One easy method that you can use to know EXACTLY what your readers will buy from you. * Another easy method that you can use to know what price point you should set to maximize profits. * How to write your very own profit-pulling sales letter. * How to set up a basic payment processor. * How to generate free traffic that pulls in a TON of sales. * How to put it all together so that you can start making money quickly with your very own product. Module #3: Building Authority (aka Becoming a Recognized Expert) Have you ever noticed how certain people in various niche markets are considered experts (or

gurus)? Now it's your turn... Becoming a recognized expert is actually a lot easier than you might think. You don't actually have to be an expert, you just need to look like one. Here is some of the training you will receive:

- * How to build relationships of trust with your readers so that they believe you are a trusted expert.
- * How to use content (emails, articles, blogs, and videos) to quickly become an authority in your market.
- * How to use that same content to make even more money!
- * How to leverage your partners (and potential partners) - this is the fast track for becoming an authority in your market

odule #4: Back-End Strategies Huh? Back-end strategies? What's that? Please listen very carefully - Multi-million dollar companies are not built around \$27 e-books. Does that shock you? Want to know the secrets on how to go from 5 and 6-figure businesses to 7 and 8-figure businesses? It's called your back-end, and it's the single most profitable place in your business. In this module I will teach you:

- * What are up-sells, cross-sells, and back-end sells, and how you can use them to make thousands of dollars per customer.
- * How to create higher-end products (\$500+) that people won't be able to resist purchasing.
- * How to orchestrate a \$100,000+ product launch with your small list (I made \$92,000 in 7 days with a list of about 4,000)
- * How to make even more profit while giving even more to your customers while working even less!

Module #5: Leveraging Every time you get a new partner, every time you make another sale, and every time you get one more person on your list you are able to leverage this for even more success. It's like working hard to make \$10, and then taking that \$10 and easily turning it into \$100, and then that \$100 into \$1000, and so on until you have \$1,000,000! Leveraging is so essential to your business that I would dare say that without it I would be out of business right now. In order to do this effectively, I am going to teach you:

- * How to leverage other people's time to get more done and cost you less money.
