----- Just like with any business transaction, these contracts outline the domain name / website sale terms and protect both the buyer and the seller! As a seller a signed contract will protect you if anything happens with the domain name / website in the future! As a buyer a signed contract is your legal proof of purchase! A signed document by both parties is necessary to close any business deal! This is true with selling or buying a domain name as well! When a domain name or website is bought or sold, it is extremely important for both the buyer and the seller to agree to each others terms! A Purchase Agreement should be used in ALL domain sales! If you are buying or selling a domain name, use the DOMAIN NAME SALE AGREEMENT! If you are selling a domain name and an accompanying website use the WEBSITE SALES AGREEMENT! These contractS are prepared by an attorney who deals with acquisitions of domain names, websites, and businesses for sale. *Immediate download after payment. *.DOC file format suitable for any computer OS. *Can be easily modified in MS Word or any other word-processor that accepts .doc files. *Easy to follow instructions on completing the agreements included. **BONUS report on SELLING DOMAIN NAMES included.
