It is an amazing program that will help you to churn out killer articles in no time! What this software does:

* Allows you to enter seed articles to gather information to build up totally NEW and unique articles. *

Swap multiple paragraphs within multiple articles and create a completely customized version ready for article distribution. * Input your own paragraphs and sentences that will automatically be added to articles

at the top, middle and bottom of the content. * Easily substitute thousands of synonyms to bypass

Googles duplicate filter and still keep your main content. * Select the number of paragraphs and

sentences for each article so that you have complete control of the output. * Saves you a TON of time

and effort and spares you from worrying over every single article you have to write. Tags: search engine
