Get games!

Gameboy, Super Nintendo, Genesis, Playstation and a lot more You can transfer your eBooks to your iPhone. Or, download hundreds of Free eBooks & comic books as you wish! Difference between Unlocking and Jailbreaking: An iPhone can only be unlocked after it is jailbroken. This applies to all iPhone models. WHY JAILBREAK? Jailbreak allows root access to your iPhone and iPod Touch. It removes limitation set by Apple and lets users to bypass Apples official distribution mechanism (App Store) and run unofficial code or programs on their iPhones. Once jailbroken, you can download thousands of third party applications, games, block EDGE/3G, enable MMS, enable instant messengers including MSN, Yahoo! and AIM. enable RSS Feed, personalized ringtones and wall papers, themes, video/movie recorder, GPS software, PDF/ Words/ Excel/ Powerpoint editors... and many more And why UNLOCK? Unlocking is different from jailbreaking. Unlocking an iPhone will open up the iPhones modem to accept SIM cards from other phone service companies. Example: you bought an AT&T iPhone 3GS, but you want to use T-Mobiles service, so you will have to unlock it. Most phone companies charge up to 30Euro or US\$39 for unlocking. You dont have to pay this kind of money. This software can do the same thing - At No Additional Charge. Unlocking. The Advantages: 1. Use any GSM service provider in the world or the network in the country you want/ are traveling to! 2. No more International Roaming Charges to pay. You can save up to hundreds of dollars on monthly phone bill. 3. Increase your iPhone resale value. An unlocked iPhone allows the new buyer to save a lot of money by switching to a cheaper service provider. Thus, you can sell it at a higher price. 4. Once unlocked, countless of third party software (games, ringtones & applications) can be installed through Cydia. 5. Dont be chained to a long-term contract! Some of you are paying your phone company through the nose (Almost \$1000 USD)! Save your money by using any contract or even prepaid! Our Customers Feedback: 1. Excellent, thanks so much Jonathan Linden, Michigan, United States 2. Absolutely brilliant and highly recommended to anyone who wants to jailbreak their iPod Touch. By Trembley Lucasob, Ottawa, Canada 3. Thank you very much. Item as described. Thank you very much. Schmidt Hermann, Stuttgart, Germany 4. Your software is very helpful. I consider myself as not computer-literate but the graphics in your guide was really helpful. Ive surprised my son and my grand children. LOL. Now I look like a techie among my friends. Kinda funny. Im very satisfied with what I bought. Thank you for your great guide. Megan Jensen 5. Ive jailbroken and unlocked my 3GS. Thanks! Wilhelm Schulz, Essen, Germany 6. Jailbroke my 3G & iPod. Cool. Barbara Moore, Memphis, Tennessee FAQ: Q: Can this product work with any GSM network? A: Yes, our product

works with all GSM network worldwide. We guarantee you it will work or your money back. Q: My contract with AT&T will expire in two months. Can I unlock my phone & still use the AT&T SIM card? A: Yes, you can. You can use any SIM card you want. Q: Can it unlock and jailbreak the iPhone 2g 3g from AT&T, when it is running on Firmware 3.0.1? A: Yes, it can. Q: Will it void my warranty? A: No, it will not void your warranty. This is a software its not a hardware. Just restore your phone to factory settings & bring it in. Apple will never know. Q. Im not good at technical. Are you sure I can do it? A: Yes, we are sure. If you can switch on your iPhone, you can jailbreak and unlock it! We know our non-technical users will want this to be easy so it was created EASY TO USE in mind. Hundreds of customers with no computer/ technical knowledge have done it so can you. Q: How can I know which Firmware version my iPhone is having? A: Go to the emergency call by entering +3001#12345#* then press Call. At version, you will find the firmware version is on your iPhone: 03.12.06_G is firmware 1.0.0 03.14.08_G is firmware 1.0.1 and 1.02 04.01.13_G is firmware 1.1.1 04.02.04_G is firmware 1.1.1 04.02.13_G is firmware 1.1.2 04.03.13_G is firmware 1.1.3 04.04.05_G is firmware 1.1.4 04.05.02_G is Firmware 1.2.0 AKA V2.0 Q: Is this an online download?
