Killer Abstract Backgrounds V4 - 30 Layered PSD Designs Killer Abstract Backgrounds Brand new V4 collection of 30 Original and Awesome designs in Layered PSD Format...1400 x 900 pixels in size You get 30 high quality, abstract background images, for one low price. You also get layered PSD files so you can customize the graphics fully. AND you get royalty free unlimited use rights to the whole collection. You can use these to improve virtually ANY kind of design. Use them as backdrops for your websites, headers, banners, eCovers, splash pages, videos, inside your software programs, etc.. These back drops will make all of you graphics better. And the best part is, these backgrounds are... Highly customizable layered PSD source files. Each of these background images comes in a layared PSD format. That means you can take each element you see in the design, and customize it to your liking. Turn certain effects on and off, mix them up, move them around, resize them, flip and rotate them, change the colors, combine two or more designs together, take just one certain effect like a grid, and add just that one effect to your design, etc.. There's thousands of different ways to customize these graphics. So you can use them as is, and have a nice design ready to go in minutes, or you can customize them and create your own unique designs. How does this compare to stock photo sites? There are other places to get these abstract backgrounds. But, let me tell you why THIS is a great deal. First of all, the royalty free sites usually give you a flat JPEG image of the design, so you can't customize those graphics. I give you fully customizable layered PSD source files. So you can mix and combine different effects to create literally thousands of different design combination. That's much better than just getting a flat JPEG image. Second, the price per image on the royalty free sites is usually \$1 - \$10 PER image. And that's from the cheaper sites like iStockPhoto. There are other more premium sites that charge \$25 - \$100 PER image. And again, that's for flat JPEG images that can't be customized. Third, some sites have a one time use license. So you can only use the image on one design, and then need to buy another license if you want to use the image more than once. With my package you get royalty free and unlimited use rights to the whole collection. That means you can use the graphics on as many designs as you want. That's \$9.95 for the whole collection of 30 of these high quality layered designs. That equals to less than a dollar per each graphic.

And for this one time payment, you get royalty free rights to each file. So you can use them on as many designs as you want, without buying a new license. I also have a money back guarantee, just in case that price is not low enough...
