WORLD: Reggae Details:

Twentythree Years of performances has made this reggae band one of the most sort after bands on the market today. Presently Inner Visions can be found touring and sharing the stage with Jimmy Cliff, Culture, Beres Hammond, Burning Spear and the likes of George Clinton. Festivals all across the United States such as Muzikfest in Bethlehem PA, Island Reggae fest in Kalamazoo MI, World Music Fest in Grass Valley CA, and Adirondack Festival in up state NY, all found themselves re-booking this band for back to back performances by special demand. Over the years, they have managed to crank out albums with Grammy award winning sound. In 1995 They released "Love one Another" which gave them a #2 Hit in the Islands. After that the rest has been history! They have been touring extensively building a fan base that is unmatched even by other major artists who have had their name in the limelight long before them. The hype is real and the message in their music down to earth and embracing. In 1995, RAS Records reviews gave "Love one Another" 4 1/2 Stars of a possible 5 Stars of David. This comment was also said: "Inner Visions is STRONG, DETERMINED, and READY! Respect to the bredren for their positive and joyous music!" Below are a few other reviews: "VOCAL QUALITY-very good, BACKING-very good, very good PRODUCTION and SLEVE, superb SOUND, and superb REMARKS! "Suprisingly wicked album from this (to us) unknown band. They play in a Bob Marley/Steel Pulse/ one drop style at times mixing it with unexpected influences- a promise for the future! Wonder if there are any more materials out there? If I bought this CD I would not be disappointed. Inner Visions shows promise. We will keep watching for future works!".....CRM Radio 102.7 South Netherlands/Western Germany/Eastern Belguim (1997)

"Takes me back to my trips to St. John. This is home to this fabulous band. If you go there you might get lucky enough to see them perform live. If not, this is as good as it gets and almost like being there!".....Jonathon Iszard (Five star rating: Review taken from amazon.com) "You will be rewarded for your purchase of this ten track CD by Inner Visions!".....The Rastaman Times (Special Edition) "It's a

worthy listen and a good example of alternative Island reggae!".....Bermuder Pete,Dub Missive Magazine
