About the Meditation 30 Mins: The winner of this auction will receive one copy of our HEALINGWAVES Mp3 Brainwave Entrainment Morning Coffee This session uses a combination of Beta waves and the 18HZ frequency which is known to induce energy and motivation much like the effects of caffeine! You will hear brainwave entrainment pulses designed to guide your brainwaves toward the desired frequency combined with the lively sound of the dawn chorus This 30 Min session ramps from 15hz to 18hz frequency, which is used to treat chronic fatigue and can induce energy and motivation, has also reported reductions in depression and improved sleep patterns Replace your morning caffeine intake with this therapeutic session, play it whilst waking in a morning to enliven your mind or use it whenever you are suffering from weariness! - You may also be interested in 'POWER SNACK', also designed for re-fueling your mind when time is short. Our Guarantee When using the sessions all we ask of you is to give them a fair chance to work. Resistance, both mentally and physically, can block you from entering altered brainwave states. It may take a little time to get used to the sessions and relax into them. Regular practice ensures better results! If, however, you are not satisfied to the extent that you do not feel our sessions are what we say they are, we will give you a no fuss refund - can't say better than that! How To Use The Sessions The use of Headphones will provide a more personal and intense effect AND avoid affecting those around you. You will need to find a comfortable place to be, where you are least likely to be disturbed. If the environment is a little chilly, we suggest you have a blanket over you as your body temperature may drop. A glass of water may be needed at the end of the session. When you begin to listen to the session your mind will probably start to wander over to everyday things in your life but try to keep returning your focus to the sounds in your head; this is normal and is the learned art of any type of meditation or hypnosis. After about six minutes of undisturbed listening your brain should begin to entrain toward the given frequencies. You may have strong visual reactions or strange feelings of altered consciousness. Try not to panic and bring yourself out of the states, allow any images to come into your mind - go with the flow, practice makes perfect! It's useful to keep a diary for you to jot down your

experiences after each session for later reflection. Power meditations are a series of Brainwave Stimulation sessions designed to enable deep, hypnotic meditations and self help sessions! We sell no fuss, professionally backed audio meditations and brainwave entrainment's in mp3 download format to use with headphones. The use of Headphones provides a personal and intense effect AND avoids affecting those around you!The decision to use the Mp3 format was taken with a view to reduce the pollution caused to the environment by gross CD manufacturing! The lower overheads of mp3 production means we can reflect the money saved in our prices to you, our customers, and further, our non existent packaging and the absence of a team of graphic artists and advertising professionals further enables us to offer you the genuine product without the box, the gimmicks and all the trimmings that usually come with anything bought today! - It's all good; you save money - we ALL help to save the environment!

PRECAUTIONS: Do not use whilst driving or operating machinery.
