

# Hd 2d Mandelbrot Fractal Set Zoom Animation - Trip To E107

[DOWNLOAD HERE](#)

The compression settings for the HD animation were adjusted to achieve lossless quality. HD animation of a magnification of the Mandelbrot fractal set. will play on all PC types Res : 1280x720 A fractal is a geometric shape that can be split into parts, each of which is a reduced-size copy of the whole. fractals are infinite in detail, you could magnify one forever if you had enough mathematical precision. While fractals are a mathematical construct, they are found in nature, which has led to their inclusion in artwork. A mathematical fractal is based on an equation that undergoes iteration, a form of feedback based on recursion. length : 4 minutes 12 seconds licensed music : 2Inventions Minimal Perception (Original Mix) file type : MOV file size : 1.11G to view a full length preview visit [hd-fractals.com](http://hd-fractals.com) The final magnification is e.107 Want some perspective? A magnification of e.12 would increase the size of a particle to the same as the earth's orbit! e.21 would make a particle look the same size as the milky way e.42 would be equal to the universe. This zoom is over double that. If you were actually traveling into the fractal, your speed would be faster than the speed of light. all rights reserved teamfreshSearches:mandelbrot HD
