WORLD: World Fusion, NEW AGE: Celtic New Age Details: Total Playing Time 61:16 Greetings,  
Blessings and Love to you We are Sidhe Dao a collective of Sound Healers, Multi-Dimensional  
Musicians, Qigong and Yoga Teachers, and Elven Kin based in Portland, Oregon who are dedicated to  
helping raise the vibration of the inhabitants of the beautiful planet Earth. Elven Dream, the CD you are  
now experiencing, is a love offering channeled from the realm of Fae to enhance your meditation,  
awakening, and present moment awareness. This is a journey home, into the Dao of the moment where  
all possibilities exist as pure potential. Listening to Elven Dream helps to balance the right and left  
hemispheres of your brain, also bringing balance to your Yin/Yang energies through the bi-hemispheric  
sound recording process. The result of this experience is an internal cleansing and balancing of your  
body / mind / spirit system. Through the use of sacred instruments of many of the world's nature based  
traditions, this music will help to awaken and re-connect you with your own sacred lineage. The tones  
trigger genetic codes within which bring back to this moment the lessons, magic, and information of all of  
your 'past' lifetimes. In truth, all of these lifetimes are happening simultaneously as time itself is not linear  
as is commonly believed. We are helping to build the rainbow bridges which connect us all with our  
sacred lineage. Do you have resonance with all things Celtic? Tibetan? Aboriginal? Native American?  
Daoist? Peruvian? Buddhist? Hindu? Allow your sacred lineage to return to the cells of your body as you  
meditate with the Elven Dream. Call home your spiritual power as an awakened multi-dimensional spirit in  
body. About the Cover Photograph The beautiful being emanating from the front cover is from an actual  
photograph taken by Ryan in the Columbia River Gorge. He went for a walk one day to his most sacred  
waterfall, asking for the veils to lift and for the magical realm to show itself. Upon returning home, he  
discovered this magical face smiling out from the crook of a branch. The only thing that has been done to  
the photo is a zoom in and mirror image to complete the face (which is in Profile in the actual photo). We  
are not alone About the Elven Lineage What does it mean to connect with the Elven Lineage? Elves are

not just small, mischievous beings sitting on toadstools. Elves are not just tall, etheric immortals who guide humanity through trials and awakenings as in Tolkien's vision. These archetypes express some of the dimensions of the Fae (Faery) realm. In the deeper understand, all of us are connected to the lineage of the Elves. Beyond the third dimension, beyond our skin and bones, we all exist as flowing patterns of light, sacred geometry, sound and information. Close your eyes in this moment and look deep within yourself . . . beyond your body, but not separate from it. Experience yourself as a flowing knotwork pattern of light and consciousness. . . This is your galactic Elven spirit which is reaching to be acknowledged and born through your cells into this world. This is the vibratory level to which our Elven kin are beckoning us . . . back to the intimate connection with the greens and golds of nature. Back to the openness of heart and spirit and into realms of indescribable magic.
