

Mp3 Inner Visions - Street Corner Musicians

[DOWNLOAD HERE](#)

This band plays many different styles of reggae. This album leans more towards their roots and cultural style. Having been on the scene more than 20 years, they move easily through any style of reggae with ease. If you love rootsy stuff, this is for you.. 13 MP3 Songs WORLD: Reggae Details: After the year 2000, "Inner Visions" began touring quite a bit. Travel for this realitvly unknown band was hard financially. Knowing the kind of productions the band is known for would mean finding serious funding at a time the band needed funds to just move around. However, Through the powers of the most high the funding was realized and this is the end product! Twentythree years of experience can surely be heard on this Thirteen track disc and although the band have not really done much touring over time, their fan base is far reaching. They had been playing all those years in the Virgin Islands and when they burst onto the international scene people thought they were unknown. They were even billed as the Virgin's "best kept secret!" However, Presenters and promoters soon realized that they had a huge following already. Many tourist who would frequent the little island of St. John V.I. in the Northeastern Caribbean, did so with the intention of seeing their Wednesday night treat at "Fred's Patio" regularly. Now that the band was touring, They traveled far and wide just to see them on the road in America. Many have asked why they only produced three albums and a single to date and the answer has always been the same. They spend for great productions and would have it no other way. Raising that kind of cabbage on their little island has not been easy. So please enjoy this Cd! It was created with "Nuff Love!" See some of the reviews this CD has generated below: "Once you slip this CD into your player, I think the chances are pretty good that you'll say;"Now That's reggae!"....DJ Edward Burke, St. Michaels College,WWPV 99.7FM, Colchester VT "This CD is full of nice and sweet feel good music.
