Meditations makes use of various brainwave frequencies that enable you to relax deeply and connect with your inner consciousness. This is a very healing practice which allows for a re-structuring and optimization of your mental clarity! Meditations 1 - is a 30 minute headphone session which would be ideal to use alone or with your own mental imagery or self hypnosis script. The session uses the "Schumann Resonance" which is known as the frequency of the electromagnetic field of the earth. This is a very powerful frequency and induces high cerebral blood flow. This session can be used daily as part of your meditation routine and can also be used for sleep induction. Simply plug in your headphones after downloading onto your Ipod, mp3 player or computer and listen to the amazing sounds. If you have never listened to binaural beats or brainwave therapy before - you are in for a treat! The use of Headphones will provide a more personal and intense effect AND avoid affecting those around you. Listen to a preview (*LARGE FILE - may take a few minutes to load) YOU MAY WANT TO ADJUST YOUR VOLUME FOR COMFORT PRECAUTIONS: Do not use whilst driving or

operating machinery. Because of the repetitive & hypnotic nature of some of our mp3's, those who suffer from fits, seizures, epilepsy & are pregnant should avoid these & only use our simple nature tracks. Use of the Mp3's confirms you have read & understand our warnings, IMPORTANT: PLEASE NOTE THE FOLLOWING POINTS! Our Guarantee When using the sessions all we ask of you is to give them a fair chance to work. Resistance, both mentally and physically, can block you from entering altered brainwave states. It may take a little time to get used to the sessions and relax into them. Regular practice ensures better results! If, however, you are not satisfied to the extent that you do not feel our sessions are what we say they are, we will give you a no fuss refund - can't say better than that! How To Use The Sessions The use of Headphones will provide a more personal and intense effect AND avoid affecting those around you. You will need to find a comfortable place to be, where you are least likely to be disturbed. If the environment is a little chilly, we suggest you have a blanket over you as your body temperature may drop. A glass of water may be needed at the end of the session. When you begin to listen to the session your mind will probably start to wander over to everyday things in your life but try to keep returning your focus to the sounds in your head; this is normal and is the learned art of any type of meditation or hypnosis. After about six minutes of undisturbed listening your brain should begin to entrain toward the given frequencies. You may have strong visual reactions or strange feelings of altered consciousness. Try not to panic and bring yourself out of the states, allow any images to come into your mind - go with the flow, practice makes perfect! It's useful to keep a diary for you to jot down your experiences after each session for later reflection. To be on the safe side it's not advisable to use this type of audio if you are epileptic, prone to fits and seizures or pregnant. As with all meditation and hypnosis, DO NOT use whilst driving or operating machinery!! Choose To Buy Our High Quality Mp3's & Save The Environment From GROSS CD Manufacture Pollution!! Our mp3's are created using professional, tried and tested brainwave entrainment audio techniques. You can preview the session above Each session is designed using the latest methods of delivering effective MP3 brainwave entrainment, binaural beats and nature sounds to you. We provide the correct warnings and precautions regarding our sessions before you buy (unlike some) We are a professional business backed by our own web site, selling identical sessions to the one's you will find at relaxmp3
