About the Meditation 30 mins Meditations to induce a deep state of meditation and are ideal both for those who find it difficult to focus the mind and the more practiced meditator looking for alternative or deeper experiences. The session uses the "Schumann Resonance" which is known as the frequency of the electromagnetic field of the earth. This is a very powerful frequency and induces high cerebral blood flow. Meditations makes use of various brainwave frequencies that enable you to relax deeply and connect with your inner consciousness. This is a very healing practice which allows for a re-structuring and optimization of your mental clarity! Meditations 1 - is a 30 minute headphone session which would be ideal to use alone or with your own mental imagery or self hypnosis script. This session can be used daily as part of your meditation routine and can also be used for sleep induction. Our Guarantee When using the sessions all we ask of you is to give them a fair chance to work. Resistance, both mentally and physically, can block you from entering altered brainwave states. It may take a little time to get used to the sessions and relax into them. Regular practice ensures better results! If, however, you are not satisfied to the extent that you do not feel our sessions are what we say they are, we will give you a no fuss refund - can't say better than that! How To Use The Sessions The use of Headphones will provide a more personal and intense effect AND avoid affecting those around you. You will need to find a comfortable place to be, where you are least likely to be disturbed. If the environment is a little chilly, we suggest you have a blanket over you as your body temperature may drop. A glass of water may be needed at the end of the session. When you begin to listen to the session your mind will probably start to wander over to everyday things in your life but try to keep returning your focus to the sounds in your head; this is normal and is the learned art of any type of meditation or hypnosis. After about six minutes of undisturbed listening your brain should begin to entrain toward the given frequencies. You may have strong visual reactions or strange feelings of altered consciousness. Try not to panic and bring yourself out of the states, allow any images to come into your mind - go with the flow, practice makes perfect! It's useful to keep a diary for you to jot down your experiences after each session for later reflection. Power
