Folk/pop melodies with sensual warmth and poetic lyrics with transformational themes 12 MP3 Songs

FOLK: Folk Pop, FOLK: like Joni Details: With sensual warmth, transformational themes and poetic depth, this cd ranges from the upbeat, affirmative "I Will" to the more meditative "Purnamadah, Purnamidam." Kirtana's ethereal voice and acoustic guitar are supported by bass, violin, mandolin, flute, percussion and keyboards. "This album hooked me from the start... The songs have the radiance of a folk ballad, but with the emotional wallop of a steamroller and the spiritual swat of an angel. Kirtana's voice is backed by just enough instruments to frame the song perfectly... Great album!" -- NAPRA Review
