Its So Simple and Easy Anyone Can Apply It! Dear Friend, \* Are you pessimistic in dealing with life? \* Do you find yourself making unfavorable comparisons between your physical appearance and that of a Keira Knightly or Brad Pitt? \* Do you feel that your social status is inadequate? \* Do you despair about driving an ordinary car while your neighbor maneuvers his shiny Mercedes Benz? \* Do you often reflect on how unfair your life is? If you are prone to all these things then you may indeed have an undiagnosed problem. An insidious affliction that is at this very moment sapping your energy and depriving you of the motivation that you need to succeed in your life. That feeling in the pit of your stomach, that small voice in your head that says you'll never make it, is not the real you. It's a set of beliefs that have been programmed into your subconscious mind, most likely since childhood. The good news is that these subconscious beliefs can be changed. Yes, you can reprogram your subconscious mind so that it will help you to be positive and get what you want in life instead of sabotaging all of your efforts. Steer Clear of Being Too Negative! Many scientific studies have proven that pessimism is a life-threatening disease. In addition to interfering with our immune system, it can also have a devastating effect on every aspect of our lives: our relationships with others, our career, and our capacity to grow and succeed as an individual. Here are some examples of negative attitudes. If you recognize yourself in any of these descriptions, these attitudes could be insidiously affecting your life and relationships without your even being aware of it: \* You no longer trust others integrity or professed motives. \* You start thinking this way If I cant have it, neither can they. \* You loathe yourself. \* You are easily discouraged. \* You often wonder: What's the use? Help yourself heal and prolong your life by boosting your minds energy and reprogramming your subconscious. As Aristotle said, The energy of the mind is the essence of life. So live your life with positive energy in your mind! Positive Thinking Leads To Achieving Big Goals! If we think well fail our exam, well never be promoted, or our relationship will not work out, then this is most likely what will happen. Remember that our thoughts reflect

who we are. We become what we are because of the way we think. Everything rests on how we think, act, and believe. A positive attitude is essential for the mind, body and spirit. A positive attitude breeds confidence without egotism. With the realization of your own potential and confidence in your own ability, it will never be impossible for you to get whatever you desire. Shun negativity and start filling up your mind with positive thoughts. The BIG question now pops up: HOW? The answer: THROUGH SUBCONSCIOUS PROGRAMMING. Subconscious Programming: Lifting you to the stars! Do you know that our mind has two areas? They are composed of the conscious and the subconscious. The conscious mind is the one that feeds information to the subconscious. The latter acts as the translator to the former. Our subconscious is so full of zip that it works 24/7, even when we are asleep. However, unlike the conscious mind, our subconscious cannot tell right from wrong. It just swallows everything that is fed to it by the conscious without reflection. That is why our subconscious needs to be controlled. Learning to control the subconscious mind is necessary for you to know how to reprogram it. It is only then that you will be able to achieve true personal development and reach the empowerment that only your mind can give you. What can I get from subconscious programming? We are all made for a purpose, yet many fail to recognize that truth because their minds are filled with negative thoughts and their hearts are filled with negative feelings. This causes their belief system to become deteriorated, thus making them bitter in life and in the way they perceive the world. But there's a way for you to avoid being one of them. All you have to do is know what subconscious programming is all about, and how it can help you reach your stars and be in tune with the universe.
