

# Instant Video Suite

[DOWNLOAD HERE](#)

Theres no denying the power of video. Think about how much stuff is sold through infomercials in the wee hours of the morning. The good news is you dont have to be a television producer or tech-weenie to capture the power of video and put it to work for you on your own web site! Introducing Instant Video Suite -- a complete package of easy to use tools. All you need is a web cam, speakers and a microphone, and within a few minutes after installation, you can begin producing incredible videos to: Create a stunning video presentation with just a few mouse clicks and use it as a sales tool on your website Record a short powerful Live sales message via web cam and put it on your website within just a few minutes Include an affiliate link on your videos (such as the video at the top of this page) and earn attractive commissions as you market your own products or services Include a how-to video guide for each of your products or services and include it in your product manual Train your affiliates how to sell a lot more by showing them your killer marketing tactics in a way no words can ever demonstrate.... your affiliates would literally explode your business to whole new heights
