Are you starting to see the doors that will open to you when you start using "Impact PopUp"? No longer will the door be slammed in your face, it will be flung wide open showing your visitors your most important message within seconds. "Impact PopUp" Is Point-And-Click Easy. If You Can Click, Copy, and Paste, You Can Do This! "Impact PopUp" is a simple Windows application that will guide you through the entire process of creating these dazzling, attention grabbing, popups. Simply point, click, and create ... It really is that easy! Impact PopUp - Step One Choose from one of the 10 professionally designed, high-impact graphics for your "Impact" popup. Simply highlight the popup template you'd like to use, and move on to step two. As you can see, "Impact PopUp" includes the most popular graphic styles, styles that have been proven to get your visitors attention. These amazing graphics allow your popup to appear as though it's almost magically floating above your website! Impact PopUp - Step Two Step two is where the magic happens. "Impact PopUp" gives you full creative control over the look and layout of your popup. In this step you can resize the graphic template to fit your website, choose whether or not to include a close button on your template,

and add the text to the template. "Impact PopUp" allows you to use any font you wish! If the font is installed on your computer, you can use it in your popup. You can also choose the color, position, and even the angle of all your text! Everything is done with just a few clicks of the mouse. Drag and drop your text, resize the image with one click, and change font colors and styles with ease. Impact PopUp - Step Three After you've created the look for your popup, it's time to tell it how to act. Again, you have full control over your "Impact" popup, and it's all configured with a few clicks of the mouse. Set the website where you'd like your visitors to go when they click your "Impact" popup, or you can have the popup close when it's clicked. You can set the popup to open links to the same window, to a new window, or even have the popup close automatically after a few seconds. You can also set the exact position where you'd like your "Impact" popup to appear on your website. If your logo is on the left, just set the popup to appear to the right ... it's that easy. And as an option, you can set a cookie on your visitors computer so that your "Impact" popup doesn't show up again if they come back to your page. Impact PopUp - Step Four Once you've created your "Impact" popup you'll get to see exactly how it will look and act on your website. This preview step allows you to eliminate any mistakes, and do it before your visitors ever see them. This step takes all the guesswork out of the equation. If you're not happy with your "Impact" popup, just click the back button and make your changes. If you've set your "Impact" popup to close after 7 seconds, you'll see that happen here. This is a true and accurate preview of how your popup will look on your website. Impact PopUp - Step Five The last step in the process is to add the "Impact" popup code into an existing web page, and we've made this a snap too. Simply browse your hard drive for the web page you'd like to add your "Impact" popup to and click the "Add popup" button. Once you click that button, everything will be done for you, and in just a few seconds you're ready to go. Or, if you'd prefer, you can save the graphics to hard drive and the program will give you the code to insert anywhere in the body of your web page. Of course we like to keep things simple, but if you want to make the changes yourself, that's completely up to you. Once you're done, simply upload everything to your website and be ready to see your conversion rates go through the roof! As you can see, this really is a point and click solution that allows you to make a dramatic impact in seconds. "Impact PopUp" Crushes The Competition And Stands Head-And-Shoulders Above The Rest! Let's face it, in the software game, there are always competitors out there, but "Impact PopUp" is the obvious choice. You just won't find another application that is as easy to use, and as feature packed as this outstanding application. The software runs on your computer,

and the popup files are stored on your web server. Using this program gives you the peace of mind in knowing that you'll never have to worry whether your service provider is going to be around tomorrow. All of the files required to make your "Impact" popup work are stored on your own web server, so you're not at the mercy of another host. If your web site is online, your popup will be online too. And best of all, "Impact PopUp" is the best value on the market. Unlike some of our competitors, you'll never have to pay a monthly fee. Once you purchase "Impact PopUp", it's yours forever, without ever having to spend another penny. Tags: mrr
