How would you feel if I told you that in less than 11 short pages youd be able to draft and design your perfect lifestyle? That sounds better than trying to get through another 317 page boring book doesnt it? One of the biggest reasons many people dont achieve their goals is time. Most people want to set and reach their goals but theyre spread so thin they never fishing the goal setting process. Unfortunately heres where Ill lose those who are dead lazy and expect a free ride in life or those who would rather blame others because of the so called hand theyve been dealt as to why they never seem to get ahead or get anywhere. To actually reach for the stars and hit your goals takes a bit of effort! It's hard to believe but the truth is most people spend more time planning their weeks vacation than on how to create the lifestyle they really want and deserve. Its not really all their fault because until now all the so called goal setting systems or methods involved so many hours of reading and even more hours for planning. This bothered me because I knew it was not as hard as all the book gurus make it out to be. It does not take hundreds of pages or even tens of hours to prepare a plan that works. On the surface it seems so simple but how many weight loss goals, income goals, or personal goals, have you ever followed through on?
