"Which One YOU Gonna Choose?" 1. Tension-fraught, frustrating hours spent wandering aimlessly through a forest of unknown code with nothing but a confusing manual to rely on -- knowing that one slip could cost you hundreds of dollars in lost sales. 2. A relaxed installation, following an easy step-by-step guide that shows you the way with oh-so-simple screenshots. So ... what's it gonna be? Kevin Riley Kevin Riley is a self-professed technophobe who likes nothing more than a good set of instructions with lots of great pictures to show the way. Dear Fellow Entrepreneur Jon Leger has created a great tool for us in "\$7 Secrets" -- and it is a boon to any infopreneur. It lets you easily build a valuable list of high-quality paying customers -- and make money at the same time. It's basically a win-win situation. However -- with all respects to Jon -- his manual is like one of those badly drawn maps your drunken buddy sketches out for you on the back of a cocktail napkin. Instead of finding his weekend cottage where all the beer and BBQ is, you end up on some overgrown track that dead-ends in a swamp. The first time I installed a \$7 Secrets script, the air in my office was filled with blue words -- as I tried to make heads or tails of the instructions. I don't know about you, but I like a nice, detailed series of pictures that shows me exactly what to do -- and how to do it. A picture really does speak a thousand words. So ... just for you, I created "All-Thumbs Guide To Installing \$7 Secrets". It's for you, because I don't want you ending up in some forlorn swamp -- or even worse -- losing out on hundreds of dollars in sales because your script ain't working properly. All-Thumbs Guide To Installing \$7 Secrets Here's what it does (short & sweet): Check Step-by-step screenshots show you every little step to take -- and exactly how to do it. Check Takes you through 1. Installing the script. 2. Editing all the files. 3. Uploading pages, script, and product. 4. Creating & adding your autoresponder opt-in code. 5. Customizing your settings. 6. Testing your payment & delivery system. It couldn't be easier! Unless of course, you invite me and my wrench to your house -- to install it for you. But, with the airfare, and my need for the finest red wine and exotic cheeses to keep me working, this might be a rather expensive solution. Instead, you can get this simple, step-by-step illustrated guide for only \$7 -- definite bargain! CheckYes! That's all this fantastic, step-by-step guide is gonna cost you ...\$7. Ok, quit banging your thumbs. Get this easy-to-follow guide now ... and have your script installed in
