

Email Address Collection 1 & 2 & 3 (90 Valid, All Collected Manually)

[DOWNLOAD HERE](#)

This is ALL my email addresses collection (1 & 2 & 3). The email collection is in txt files. There are about 300,000 ++ (rough figure) email addresses inside. All are collected MANUALLY (not by software or search engine). About 90 (rough figure) of the email addresses are VALID and tested. I have spent many many hours effort to collect all these email addresses one by one.
