The Google Traffic Pump System shows you how to get free targeted traffic from Google to your website in 15 minutes! The Google Traffic Pump System package gives you everything you need to start an online business and it makes the perfect compliment to an existing product portfolio. The Google Traffic Pump System is essentially a turnkey business-in-a-box! Here is an actual breakdown of The Google Traffic Pump System: STEP 1: Simple Keyword Research for Targeted Traffic The first step in the traffic pumping system is to create a set of highly targeted keywords and phrases that apply to your product and niche. This step shows how this is done. In this section, you get to see exactly how to create this highly targeted list of keywords using free Google tools as well a few others that dont cost you a single penny! This is a very important step most online marketers tend to skip over quickly and suffer huge losses in profits. But you will learn how to avoid this mistake forcing you into profit from the start! STEP 2: Formatting keywords into Traffic Pumping Questions This is what no one really knows how to do. In this step you will see how to construct traffic pumping keyword combinations formatted into powerful questions designed specifically to siphon massive traffic fast! In fact, many online marketers dont realize the power of questions! Strategically designed questions that contain your top keywords or keyword phrases can be extremely effective when it comes to driving massive traffic to your websites in record time! But, most importantly, these questions are also designed to attract laser targeted traffic of potential buyers that are looking for the exact solution your product or service can provide the solution for! STEP 3: Setting up Your Pump Funnel Gmail Account If you do not have a Gmail account, this step will show you how to do it. This may seem like a very trivial step in this system, but in fact, its the most important! This is where your traffic hub starts as well as where you will be receiving your new lead information. STEP 4: Setting Up Your Google Alerts Traffic Pump With this step you will learn how to get your traffic pump flowing. This step takes your new Gmail account to the next level. Many new-comers to online marketing dont realize how many free and VERY powerful tools that Google provides. Google Alerts are no exception. In this step you see how to setup your Google Alerts to pump laser targeted leads from the Google search index into your traffic funnel and ultimately to your web sites and/or services! STEP 5:

Getting Your Traffic Pump Flowing With this step, you will be shown how to maximize the return on your results so the work you did previous will give you top results. In other words, this step ties it all together forming a constant gushing pump of new fresh targeted leads into your online business in mere minutes!
