Get your pages into the search engines fast so you can start making money from them as quickly as possible, instead of letting them waste away for months. Save your valuable time because you no longer have to manually write content to keep your blogs updated. Easily maintain potentially thousands of blogs in practically any niche without being an expert! Use other peoples expertise to profit. You dont have to know squat about a market to start a blog and take it over! Post different author names automatically so each post looks like its being made by a different person. Make a big impression on your readers by having your blog look like you have an entire staff managing it! Avoid the time consuming task of writing content for your blogs. Now, the benefits of blogs are given to you automatically... So you can spend your time on new and exciting projects! Enjoy automatically updated content. As soon as new articles or news items from the sources youve selected are published, your blog is updated! Receive fresh, ready-to-go content for your readers to devour. By adding quality content to your Blogs, search engine traffic is going to stick around to read your content and click on your ads! Test out niches to avoid flops and find out if theyre profitable. If you cant generate enough traffic or affiliate sales from a market, then you can get-out before you spend your valuable time creating a product for it! Use this content as a replacement for your normal entries when youre on vacation or have too much on your plate. Now, youll never lose visitors and sales, when youre enjoying yourself or just too busy. You dont have to take the time to install Wordpress, or sign-up for other third party blog hosts... It includes its own blog. Set-up one time for each of your blogs and forget-it. Everything is taken care of for you! Gain control over your blogs look and feel to set them apart from the rest. Change the header color, background color, site color, and the blog title to your liking. Without editing a lick of HTML code, quickly

add 5 outside links to any website you want from your blogs. This insures that readers and search engines will flood-in to all of your sites! Upload keywords you want to target rankings for from your personal search tool (Such as WordTracker or Overture). This means youre going to gradually capture the top search engine terms youre after, not just leave it up to chance! Post a random number of entries for a more natural feel. You wont have the same amount of posts each day, which can make it appear like a computer is in control of your blog. Alert search engines to suck-up your blog entries and visit website links from your blog by inputting and automatically pinging a list of ping URLs each time a post is made. Randomly organize your posts to different categories in the blog - so it mirrors actual human blogging trends. Run CRON jobs - this means your copy cuts on at pre-defined times each day. And, the content delivery process is fully automated for each blog and you dont have to touch it again! Grow the most valuable asset a web business can have... loads of fresh relevant content! Youre going to slowly amass a fortune in top rankings! Plus, so much more!
