

Job Management - Recruitment Php Website Script

[DOWNLOAD HERE](#)

Job Management - Recruitment php Website Script Job Manager is a web application for running and managing a Job Manager. It is written in PHP and supported by a MySQL database. It is a complete script for those that want to run a professional Job Manager website, with all the features that you would expect. br Search jobs, browse jobs by date, by category or by employer. Latest jobs listed on the front page. Job Seeker's Area Jobs seekers can sign-up and submit their resume or manage their Job Alerts. Job seekers can manage other things associated with their account. Employer's Area Employers can sign-up and browse job seeker's resumes, manage their advertisements or manage their Resume Alerts. Job postings can be 'Standard' or 'Premium'. Additionally, job seekers can submit their profile and manage other things associated with their account. Admin Panel The Job Manager is highly configurable and there are many possibilities for running the Job Manager. The administration panel consists of a set of web pages where you can: Approve / Disapprove / Edit / Delete job postings Approve / Disapprove / Edit accounts with the click of a button. View / Edit / Delete resumes. View sales reports and manage transactions, see who is currently online Set Prices Configure Categories, Forms, Language, Email Templates, General options, Columns on lists Create / Send Newsletters Dynamic Forms which support a large number of field types including radio buttons, multiple selects, images, word documents, YouTube video and more. Dynamic Search Forms Dynamic Lists Themes & templates Plug-in System A powerful plugin system allows PHP developers and integrators to develop their own custom extensions / components to provide extra functionality. Additionally, ready-made plug-ins can be downloaded and installed separately. Anonymous and Blocked Fields on the resume form Fields can also be 'blocked' or set to be 'anonymous' Advertisers are given the choice of buying Standard Posts or Premium Posts Subscription are purchased for a period of time. (For example 1 month, 6 months or 12 months, any combination is configurable) The Job Manager can also run in a "free" mode, and Standard Posts are free to all. It is possible to limit the number of free posts per user. Other payment systems include: 2Checkout, Authourize.net, MoneyBookers, CCAvenue, NOCHEX Other non-instant payment methods supported, such as Bank Transfer and Check / Money Order. RSS Feeds Distribute the latest

jobs to other websites through a built-in RSS feed. For example, users can add the latest job headlines to their My Yahoo Page. Email Alerts If your Job Manager is targeting a specific area, you can enable the map feature. The map will be displayed with each post. Advertisers can mark the location by moving the marker on the map. Online Applications Candidates can apply to the job postings online. You can control whenever the candidate needs to login in order to apply, or who the application goes to (Employer or Administrator or both). Candidates can attach up to 3 attachments at a time, and the application will be sent by email. Tell A Friend & Save This Job Job Seekers can use this feature to send an email to their friend about a job posting that they found. Users can also save their job listings to their private area. Custom Time Zone Categories Categories can be defined for job listings. The categories can be navigated by links, or using the 'Category' field on the Search form. Additionally, it is also possible to specify categories for Resumes and other forms as well. Customizable look and feel The Job Manager comes with a main.css file where all the styles are defined. You can control many of the look and feel aspects by simply changing the main.css file. Additionally header.php and footer.php files can be changed so that the Job Manager fits in with the layout of your site. If you know a little php, you can modify the index.php page or other pages for even further customization. WYSIWYG Editor A fully featured WYSIWYG editor is included and can be used by advertisers to format their job postings how they want, the way they want. The editor can be added as a field to any of the forms, and is highly flexible. It includes a feature for pasting in documents from Word, where it will fix all broken HTML which Word can produce. (Additionally, the Job Manager ensures to strip any unwanted or dangerous HTML...) Export to CSV file Job Posts, Resumes, Employers, Seekers and Profiles can be exported to a CSV file and imported to your favorite spreadsheet for further analysis. Search Engine Optimization (SEO) features, including XML Sitemaps and search engine friendly URLs (Requires Apache HTTP Server with Mod Rewrite installed). Ability to customize title, description, keyword and file-name for all categories. Plus Many Many more features! This website script comes with full master resale rights.
