"Dating Isn't Fair - Find Out What Women REALLY Want!" Dear Friend, Women are literally laughing at 95 of men's online dating profiles and it's not because these guys are ugly or funny looking, it's because of the attitudes these men have to dating and women. Their online profiles scream to women that they are wussies and desperate and they don't even know it, they think this is what women want and then they scratch their heads when women turn around and tell them, "let's just be friends" or "I'm not in the right place in my life for a boyfriend, but you're a really nice guy tho". I bet some of this sounds familiar to you, which is nothing to be ashamed of.... Because this used to be my life's story! Haha, it's funny when I think about it now mate, but at the time I had no idea what I was doing wrong. I'm not just talking about online dating here, I'm talking about dating in general. I HAD NO CLUE AT ALL! But I started reading everything I could get my hands on (I spent thousands of dollars on tapes, courses, you name it), I tried every possible technique under the sun, I got rejected 100 times over all in the name of trying to learn how to be successful with women. It wasn't just like I woke up one day and I magically became great with women and never got rejected ever since, because that's not true, but I do have a tried and true method to be super successful with women that has been working for me for over 2 years. Give Me 15 Minutes And I'll Show You How To Have Scores Of The Exact Type Of Women You Like Wanting To Date You Within Hours With The Power Of Online Dating! Have a look at this screen shot. This screen shot shows you how many women responded to my ad and wanted to know more about me. This is only in a 2 day period using only 1 online dating site! I'll be honest, not everyone of these women were my type, nor after chatting online or going on a date was I what all these women were looking for, but online dating is a numbers game..... and while online dating is a numbers game, You don't have to be attractive, rich or anything like that to be successful with women. In fact, the guys I know who are most successful with women don't have a lot of money and they are just average looking men, nothing special about them,

except they know what women want, they behave and hold themselves in ways women find attractive. This is what I teach you in this guide today. Here's a taste of what you'll discover: Why women no matter of age, sex or race look for the exact same type of qualities in men they date - In this chapter I explain the unwritten law of attraction. If you don't understand this, you are never going to be successful with women, no matter what you look like or how much money you have. How to get rid of your fear of approaching and meeting hot women - You can be as cool as a cucumber when you're chatting to these women online, but if you don't bring your A game to the table on the first date, it's all over red rover. But don't worry, after reading this chapter, you will never worry about being a jittery mess again, scouts honor. How to get women literally obsessing over your online profile and jumping to contact you first - The worst thing you can do to hinder your online dating chances is to write a "me too" type profile like every other guy online. Women (yes, even the less attractive women) are literally hounded by men on these sites and are sick of the same old boring profiles. I even give you online dating profile examples you can steal as your own! Learn how to write email followups that get womens attention and you on a first date - The worst mistake you can make is giving up too much info too quickly and not asking for a date straight away. If you do this, you will end up becoming best friends with these women and not potential mates. How to get a womans phone number fast using instant chat services like MSN - Online dating is a step by step process and if this step is not working for you, you will never get a date. If you can't get a womans phone number, quickly and confidently, you're dead in the water and some other guy will take the girl away from you again. You will learn the complete step by step process I use to this day to get more dates in a week than any guy I know - The most successful guys I know use a 9 step guide when it comes to online dating and that's what I show you in this book in detail. NOTHING is left out at all! From step 1; Learning the laws of attraction to step 9; How to date multiple women. Learn all of this plus a hell of a lot more
