Instant Sales Booster Instead Of Making Them Think Twice, They Just Go For It and Sales Start Coming In Like Hot Cakes! Finally, a brand new script that gives you the opportunity to increase your current conversion rates and see a huge boost in sales! Here Are 10 Amazing Benefits You Will Receive When Grabbing Your Copy Of Instant Sales Booster Today! Youll be able to create unlimited coupons for all your websites from one central location. Step By Step Videos that take you by the hand and shows every thing you need to know in order to install the script properly. You will be able to add / delete / modify coupons from your admin panel any time you like. Receive emails every time one of your coupons are being used. As the admin you will be able to track where each of your visitors are coming from and how they got your coupon code. Set a certain amount of times each coupon can be used. Set expiry dates on coupons after which they will not be available for use any longer. Be able to preview each of your coupons and test them. You will be able to change the look and feel of the site simply using a sandwich-style header/footer with the graphics, CSS etc. of your choice Plus So Much more! Standard Requirements: You must have a Cpanel/MySQL and (phpMyAdmin - 2.9.0.2) to be able to install the script. If you have access to cpanel these are most likely available already. I Have Put In Special Features So You Can Get The Most Out This Script! Here is a small sample: Setting Expiration Dates On Each Coupon: This feature allows you to input a specific date when coupons will expire. Have you heard of creating a since of urgency? Thats what this option creates each time you share the coupon code with your prospect. If your prospect knows that they only have a certain amount of time to benefit from the coupon they will more then likely decide to take advantage of your offer sooner so they dont miss out on anything. Limiting The Amount Of Coupons That Can Be Used: This feature is made specifically for testing in comparison with the Expiration feature. You can take half of your prospects and send them to a page where you have your coupon set to expire on a specified date. Then you can take the other half and send them to another page where you are limiting the amount of coupons that will be given out to see which one converts the best. Statistics Page: This allows you to view where all of your incoming traffic is coming from and also gives you the option to view: The date that a visitor visited your coupon Which IP

address was used If the coupon was successfully used What coupon was used Selective date ranges
