browsers such as Safari, Firefox 1.5+, Internet Explorer 5.5+, Opera 8.5+

===== How many visitors have left your site never to return after clicking on one of your links to an external web-page? How many times have your visitors got lost on your site when trying to view videos or images and they forgot where they came from? How many times have you had to give up the URL of one of your 'secret' sites because it shows in the web browser address bar? How many times have you fumbled around putting together pop up windows or the like to keep your visitors on your site? Well those days are over. Now you can have pages open over the top of your website without fear of losing visitors.

***** The Smart Window Maker is a script that installs on a php server that then give you a set of forms, you fill in the details for the effect you want, press a button, and up comes the html code which you paste into your webpage for the link.
