Learn How These Underground SEO Secrets Can Unleash A Never-Ending Flood Of Traffic To Your Sites And Let You Keep More Income In Your Pocket" I have a shocking discovery to tell you, SEO is NOT that hard, oh sure if you want to get to the top for 'real estate' then you have to think about LSI and siloing your content and all those crappy little things that help you to inch your way up above the next website for a week until they find out what you did and copy it. Forget all that - this is SEO for you and me! We don't care about them - in fact I wouldn't want to rank for 'real estate' anyway - I teach you why that is a lousy keyword to rank for in my guide and how they could be making gobs more money targetting the golden keywords that are actually easier to rank for and more profitable! This guide is for you and me, it is real world SEO that gets us traffic to OUR sites in droves, that helps us to rank for the important keywords in our niche. Yet people read up on SEO from the kind of people who are trying to rank for these super-competitive terms and they think SEO is rocket science. It isn't.... It is just a simple system that you can use to give the search engines what they want and rake traffic in all day long to whatever website you want... Introducing 'Nuclear SEO' Here is what you could be learning just minutes from now! * The truth about the dreaded duplicate content penalty! * How blogs can supercharge both your SEO and your site building efforts easily (This is HUGE if you want to have lots of successful sites) * The exact keywords you want to be targetting (Not the ones 95 of people go for!) * How to do effective keyword research using just free tools!
