Lively and authoritative, this study of a widely misunderstood subject skillfully navigates the rough waters of anarchistic concepts-from Taoism to Situationism, ranters to punk rockers, individualists to communists, and anarcho-syndicalists to anarcha-feminists. Exploring key anarchist ideas of society and the state, freedom and equality, authority and power, the record investigates the successes and failures of anarchist movements throughout the world. Presenting a balanced and critical survey, the detailed document covers not only classic anarchist thinkers-such as Godwin, Proudhon, Bakunin, Kropotkin, Reclus, and Emma Goldman-but also other libertarian figures, such as Nietzsche, Camus, Gandhi, Foucault, and Chomsky. Essential reading for anyone wishing to understand what anarchists stand for and what they have achieved, this fascinating account also includes an epilogue that examines the most recent developments, including postanarchism and anarcho-primitivism as well as the anarchist contributions to the peace, green, and global justice movements of the 21st century.
