Quality Guru-Style Minisite Templates! When it comes to marketing your products online, nothing is worse than attempting to do everything yourself and I mean EVERYTHING! Its bad enough just putting an eBook together and writing up a sales page. Its bad enough just setting up your site with your own PayPal button and getting that linked to your download page! Well, whilst I cant promise an easy solution to have everything done for you, I can provide you with the graphics already done to make your life easier! Unless youve been hiding under a rock or are completely new to the internet, youll know that graphics help SELL a product. I dont care what youre selling words alone can only do so much, but graphics will help your visitors decide if they want to stay on your website and read your sales copy or leave there and then. Good graphics represent you, your business and what youre selling. If your site looks tacky, and looks like a home-improvement botched job, what impression does that leave about your product? It doesnt matter how good your sales copy is, how valuable your product actually is, or what other people are saying through your testimonials, or even if youre offering a LIFETIME guarantee. No one would care and your efforts would be completely wasted! Forget about one-time offers, upsells, downsells and cross-sells, tell-a-friend scr|pts, tweet me buttons, share this on Facebook buttons, affiliate programs or even offering high-ticket items, none of it will happen because you didnt make a good first and lasting impression. You did not WOW them! Even if you wanted to collect sign-ups and follow up with your subscribers with promo emails for you products and affiliate recommendations, no one would want to sign-up because of the first impression youre leaving on your site! Theyll remember you as thats the guy with that awful website trying to spam me and sell me junk... harsh but true. So with that said, it stands to reason that graphics comes FIRST in the sales process and is definitely a top priority when it comes to building an online presence. 7 complete mini-site graphic packages which you can modify with your
