The practical tool for fast and convenient translations, click & translate 4 lets you translate single words and entire passages in all Windows applications. Featuring an extensive, up to date dictionary, a window for alternative translations, and user configurable translation and handling preferences, click & translate is your competent translation assistant. This little translation program lets you translate entire passages that you can import conveniently from the clipboard or enter directly in the tools dropdown text field. click & translate 4 can now offer alternative word translations with even greater sensitivity to context. At the same time, the system presents the source of the translation after consulting an additional word list compiled on the basis of statistical analyses. This means that you can translate with even greater precision. click & translate 4 is already included in translate plus and translate pro. System requirements:PC from 400MHz, 32MB RAM, 120MB free fixed disk storage, CD-R drive. Windows 2000/XP/Vista/Windows7 (32Bit/64Bit).
