This software allows you to take any website and pull a report of every word used on that site. It will list the word, as well as how many times that particular word is used. You can monitor sites with great search engine rankings and Really analyze their content. You'll then know what is overkill and what isn't enough. To the search engines, there is a fine line between keyword rich content and keyword spamming. Scan for keyword density from Web pages on you're computer hard drive or scan pages on the internet. Easily generate a report in HTML format for your records
