

Amazon Store Script

[DOWNLOAD HERE](#)

Amazon Store Script is a revolutionary search engine friendly Amazon affiliate online store creator that allows you to create search engine optimized (SEO) Stores on your own domain names and websites quickly and easily. With Store Script, you will be able to integrate your entire Store as part of your website. Each product in your store will have its own unique URL that is crawl-able, index-able and search-able by all major search engines including Google, Yahoo!, Bing, Askand Moreover. You can also add your favorite web analytic code to track store performance and traffic conversion, and increase revenue streams by adding ad codes from networks such as Google AdSense and Yahoo! Publisher Network (YPN). You can boost unique content by adding related RSS feed of your choice.
