My name is Mark Fric and I'm professional forex trader. I'm going to reveal to you a system that is simple to learn and easy to trade even by complete newbie, and moreover, the system that will take you maximum 10 minutes a day giving you consistent profits month by month. Forex Morning Trade. It is 100% mechanical system with clear rules; it places one trade a day in the morning. It doesn't require you to watch your position, the trade hits the profit or loss automatically. Just imagine that your trading day looks as follows: 1. In the morning you'll look at the charting platform and decide if you'll open the trade decision based on the rules of Forex Morning Trade system 2. If the conditions are met, you'll simply place a trade and walk away. That's all. You don't need to sit in front of the screen, monitoring your positions. The trade will either hit profit target or stop loss automatically.
