Fed Up Of Building Your List With Tyre-Kickers And Window Shoppers Who Dont Know What They REALLY Want Whilst Youre Painfully Raking Up An Auto-Responder Bill Thats Eating Into Your Profits?... Now You Can Finally Erase Those Clueless Subscribers And Build Leads Who Are Actually Interested In What You Have To Offer! We all know that the money is the list right?... I mean thats common sense by now. But what most have not grasped is that its not the size of the list or how many you can stuff into your auto-responder, but the QUALITY of them. The source of the traffic matters... just ask any marketer who has tens of thousands of subscribers on their list but fail to get a couple of hundred clicks when they send out an email! Yes QUALITY matters and so does the type of subscriber you have. We all know that the make money niche is profitable - but what makes it lucrative is knowing how to break up the niche into smaller segments and catering to the right people. Example 1 - A single mum could really do with the extra monthly income. She wants to make money as soon as possible with the least amount of complication. She does not want to learn how to set up her own website, nor does she want to spend weeks getting traffic. She would be a perfect candidate for making money on eBay. Example 2 - A small offline business owner wants to expand his business online and has a little money to do so. He does not want to spend too much time learning the intricacies of setting up an online business and would rather spend time promoting it. A done for you service may be the perfect solution for him. Heres two quick examples off the top of my head where both are interested in making money online, but both have different ways they want to do it. This is why it is so important to segregate your subscribers - even if youre in the make money niche! This is why youre on this page today - to help you establish yet another profitable avenue within the make money niche which you can capitalize on again and again... the Resell Rights niche! Why Is The Resell Rights Niche So Profitable? Quite simply because it provides the buyer with an INSTANT business! We all know that creating your own product from scratch is a VERY time consuming and laborious job. Anyone whos dabbled in this area will tell you this. Resell rights gives the buyer permission to sell the product just like the original author. Lucrative?... You bet! So any intelligent person can look at a website, check out its sales page, decide for themselves whether or not theyd buy it,

and then decide to purchase a resellers license to the product. Just to prove it to you that this sort of buying decision is made every day, heres a recent screenshot from my Google Mail account. Note that I mark payments (ClickBank, PayPal etc.) in red tags so I get a good overview of how well Im selling for the day... Need Proof That Resell Rights Products SELL?... Heres A Typical Day In My Inbox... Now this represents a typical day of sales (two days of sales in this screenshot) and the majority of them are products that I purchased resell rights to. If that doesnt prove to you that purchasing a resellers license is a hot business model, I dont know what will... Remember, that after the initial setup of these products, I dont have to do much else. Depending on the type of product I may spend 1-2 hours setting it up, sometimes a day, sometimes a week. The point is, I do it once, and I leave the rest to work on its own so that its bringing in an income pretty much for life. Of course when I do a promotion, my inbox gets a lot busier! Im showing you this not to brag, but to show you that the resell rights niche is definitely worth getting into, so you can start selling products with resell rights to your own list! But How Do I Build A List Of Resellers? Thats where the Resell Rights Warrior Package comes in! For the first time youll be able to get your hands on a complete system that will help you capture HOT prospects who not only understand what theyre signing up for, but will be eager to hear from you as soon as you have a product with resell rights to offer! Day 3 - How do I compete with other Resellers who own the same product? Hi {!firstname\_fix}, Many people avoid resell rights products simply because they believe that they cannot compete with other resellers who are selling the same product, or they feel the market for that product may be flooded due to the fact that there are a great number of other resellers. However, if you really think about it, most people purchase resell rights, and have no intention of reselling the product they simply wanted the product. Others purchase resell rights to sell the product, but honestly dont know how, or dont use very effective marketing techniques. In fact, 90 of the people who hold the same resell rights that you hold are doing it wrong. First, you must increase your marketing efforts. By doing more, you will put yourself well ahead of the 10 that are actually marketing the product correctly. Find new markets for the product and new ways to reach them. Consider holding teleseminars or joint venturing with other marketers who have large subscriber lists. Next, make your package more attractive than other peoples. You typically will not have the right to change the product, but that doesnt mean you cant change the offer. Use other products as bonuses, as long as you have the right to give those products away. Beef up your package, and you will pull ahead of the competition quickly. Also, change your sales letter. Dont use the same sales letter that other resellers are using. Make yours unique. There are many other things you can do to improve your product but the best way is to put yourself in the shoes of your visitor. Make the offer so tempting that it

would be stupid for the visitor NOT to buy! Adhere to all their specific needs and emphasize how and why your product will help get rid of those problems and I can guarantee you that you'll generate more sales!

Best wishes, YOUR NAME

However free is sometimes best, which is why you should be using them to hand out quality information in exchange for traffic! Sample article below...

Why Set Up A 100 Commission Program Especially If You're Selling Resell Rights? It might seem silly, but a 100 commission affiliate program can be more profitable and potent than an affiliate program which offered 75 or less even if you're selling master resell rights to the product!.. And here's why...

1. The affiliate doesn't have to set anything up. Even if the affiliate knew that he or she could grab 100 of the commission by selling it through PayPal on his or her account, they would still have to buy a new domain name and upload the new product to his or her site. Some, in fact most marketers would rather send out a custom link and make sure that they don't have to put stress on their servers.
2. Reduced customer support. Affiliates benefit from little or no customer support and any questions, problems and refunds have to be handled by the product owner. For the product owner it may seem like a heavy burden but if you offer great value and ensure that any customer receives a back-up email of their purchase you can assure yourself a clean inbox!
3. It's an active list builder. We've already established why a customer would rather be an affiliate rather than a reseller so when they send customers to your site, you have an opportunity to build a database of buyers. And building a list of buyers is a much more efficient way of working as opposed to building a list of freebie seekers!
4. Instant pay-out! Why wait when you can have it now? Where possible I pay my affiliates instantly so that they

don't have to wait weeks or even months for their commissions. These are just some of the reasons why I provide a 100 affiliate program to several of my products. I use my own in-house affiliate program but you can quite easily set up an account with PayDotCom and set the payout to 100! The other thing to note is that all of this WILL NOT work unless you've got a decent product to sell. It doesn't matter what the payout is, if your affiliates are not convinced that the product will sell, they simply will not promote! It's that simple! Okay so now that you've got a better understanding of how to get more from your products, you can watch your free 2 hour video on how to setup your resell rights products at [setupmyresellrights.com](http://setupmyresellrights.com). You'll also be able to pick up a free product so you can start selling it immediately. Do you really want to waste more and more on your auto-responder bill which is slowly increasing with the size of your unwanted list?... Or do you... Want to send out a promotion whenever you feel like it, and

have a flood of happy resellers buying left, right and center, and even THANKING you for providing them with great value?... Want to increase your monthly income by 1, 2 even 3 zeros just because you entered a profitable niche?... Now look again at think how on earth Im able to pull in sales day after day after day like clockwork... Its definitely no accident! Look At My Inbox Again... Do You Think This Happened Accidentally?... I sell products day-in and day-out, whether I decide to work or not. And a lot of the products I sell come with resell rights or stem from them! Only by actually finding the RIGHT people to sell to did I manage to bring a CONSISTENT income! DO NOT make the same mistake as I did and try to force your way into a niche that doesnt want to spent... youre only wasting your time and efforts! If you can honestly say that the resell rights business is not for you, and that youre happy collecting more and more clueless subscribers, then you should click the little cross in the top corner of your screen. HOWEVER, if you can honestly say that youre willing to give the resell rights niche a shot, then please secure your copy now and use the Resell Rights Warrior kit as it was meant for!
