Dear Internet friend, The web site MySpace has received a great deal of attention the last couple of years. But what is this site REALLY all about? The foundational purpose of this site is communication. MySpace provides a means for you to create your own little corner of the Internet and devote it to your interests. Then, you can invite other people who hold similar interests to come on board and interact with you. MySpace boasts well over 100 million members, which is significantly larger than any of its competitors! If That Isn't Enough... \* MySpace also gives you more freedom to search profiles than most of its competitors, \* They have dozens of different forums and groups that are related to specific niches. This allows you to find the exact people you need to invite as friends in order to sell your given product or service. \* They have superior communication mechanisms - large-scale bulletins and individual private messages allow you to choose the right medium that you need in order to convey whatever your message or pitch happens to be for a given product or service. \* They do not restrict the amount of images, information, or videos that you upload! This means you can absolutely saturate your page with all sorts of information about you or your business - and you can do so without paying significant hosting fees, which you normally would.
