

Egold Batch Game

[DOWNLOAD HERE](#)

This is a nice batch game script complete with built in logging of each play and customizable play settings. A simple yet highly addictive E-Gold game, which is fully automated allowing the user to gamble their money and depending on the batch id generated by E-Gold you can give payout rates to your users. The whole process is automated with no chance of cheating as the outcome is generated by E-Gold and not by this script. The user can check the outcome themselves. All payments are instantly made to the user, and requires absolutely no administration. The affiliate system writtern into the script allows you to pay your affiliates a small proportion of the amount gambled. This is done by not user sign ups but by direct linking to E-Gold numbers meaning affiliates and users never need to register. The game can be up and running in seconds and earn almost imediately.
