----- Rebrandable Affiliate ID Manager Software

----- What Is Affiliate ID Manager? Affiliate ID Manager is a software that should have been available in the internet marketing industry long time ago. Finally, it is available to the market and YOU can be the one distributing it, with your ads in it! Let me ask you a question: Where do you keep all your login details and affiliate links? Nowadays, whenever you purchase a new product, you are given a new login detail. Whenever you join a new affiliate program, you are given a new affiliate detail. How about your web hosting accounts, autoresponder accounts and other membership sites? Ok, even if you have purchased ID management software such as Roboform to manage all your IDs, how about other information like the cloaked urls, tracking IDs, payment plans and payment currencies of the various programs you are promoting? Where do you keep all those information? I used to save all the information in an Excel spreadsheet and it was a mess. But those days are over. With Affiliate ID Manager, you can manage all your IDs, passwords, links and other relevant details in ONE secured software. ----- Introducing The Rebrandable Affiliate ID Manager

----- Here is the scenario: - You rebrand the software with your ads and give it away to as many people as possible. (They will thank you for it because finally, there is a software to manage all their IDs!) - They save all their login IDs and refer to it regularly. - Whenever they use the program, they will see your random ads. - The software also comes with several built-in affiliate programs that you can join and make even more money while promoting your other programs. Are You

Seeing Its Potential Now ? You can rebrand as many copies of the software as you want for any site you own. There is no restrictions! So, get ready to make more money and generate more traffic now. Grab this free bonus when you order My \$900/Week Super Niche Revealed Guide Today!
