

Shareware Creator

[DOWNLOAD HERE](#)

Shareware Creator The fast and easy way to convert any application into time-limited, crack-resistant shareware! Look... there are all sorts of shareware protection methods out there. Like Nag Screens, Feature Limits, Trial by Date, Trial by Executions, Hardware Locks, etc. Many small developers even use their own coding hacks to try and protect their software. Nice idea... but usually ineffective against the bad guys. In fact, its just an open invitation for crackers have a go. Youd be surprised at just how easy it is to unlock a registration code with a simple debugger. And isnt that a scary thought, if software distribution is your livelihood. The Big Boys (like Adobe & Macromedia) use Commercial Software Wrappers to protect their programs. These wrappers incorporate sophisticated protection schemes like Debugger Detection, Web Registration, Hardware Lock, Hardware Finger Print, etc... to lock up their high end packages. Problem is... the industrial strength protectors can cost an arm and a leg. Which is OK if youre selling a \$700 graphics program... but way too expensive for your basic \$29.95 app or utility. Thats why you need Shareware Creator!
