

# Simple Membership System

[DOWNLOAD HERE](#)

Simple Membership System has powerful member functions that control your member area and every detail of what members can see and do. You can waste your time spending months learning how to set up a membership site or you can have your money making site up and running within days or even hours . How many low cost scripts have you seen which have no support or offer no way to edit the code to customize the script? Admin receives an email on each free or paid signup as well as each OTO purchase. If a member loses his password he can have his password reset to a random password and it will be mailed to his email on file. Bottom line is ,...this software does exactly what you would want it too !
